Research Universities in Africa Cloete, Nico, Bunting, Ian, 2018-11-09 From the early 2000s a new discourse emerged in Africa and the international donor community that higher education was important for development in Africa Within this zeitgeist of converging interests a range of agencies agreed that a different collaborative approach to linking higher education to development was necessary This led to the establishment of the Higher Education Research and Advocacy Network in Africa Herana to concentrate on research and advocacy about the possible role and contribution of universities to development in Africa This book is the final publication to emerge from the Herana project The project has also published more than 100 articles chapters reports manuals and datasets and many presentations have been delivered to share insights gained from the work done by Herana Given its prolific dissemination it seems reasonable to ask whether this fourth and final publication will offer the reader anything new This book is certainly different from previous publications in several respects First it is the only book to include an analysis of eight African universities based on the full 15 years of empirical data collected by the project Second previous books and reports were published mid project This book has benefited from an extended gestation period allowing the authors and contributors to reflect on the project without the distractions associated with managing and participating in a large scale project For the first time some of those who have been involved in Herana since its inception have had the opportunity to at least make an attempt to see part of the wood for the trees Different does not necessarily mean new An emphasis on the newness of the data and perspectives presented in this book is important because it shows that it is more than a historical record of a donor funded project Rather each chapter in this book brings to a lesser or greater extent something new to our understanding of universities research and development in Africa

Corruption and Targeted Sanctions Anton Moiseienko, 2019-03-14 In *Corruption and Targeted Sanctions* Anton Moiseienko analyses the blacklisting of foreigners suspected of corruption and the prohibition of their entry into the sanctioning state from an international law perspective. The implications of such actions have been on the international agenda for years and have gained particular prominence with the adoption by the US and Canada of the so called Magnitsky legislation in 2016. Across the Atlantic several European states followed suit. The proliferation of anti corruption entry sanctions has prompted a reappraisal of applicable human rights safeguards along with issues of respect for official immunities and state sovereignty. On the basis of a comprehensive review of relevant law and policy Anton Moiseienko identifies how targeted sanctions can ensure accountability for corruption while respecting international law. **The Trouble with Kenya: McKenzian Blueprint** Lawi Sultan Njeremani, *The McKenzian Blueprint* Some lines are short some lines are long All lines are variable Some appear parallel but connect in latency Some appear linear When held against the light they reveal dependence or independence Freedom or constraints Empowerment or strife Subjugation or Justice *The Trouble with Kenya* is a microcosm of any given country's social and justice pillars These pillars have been subordinated to the political and economic pillars in many societies with politics and the economy being deified as the all encompassing enablers of the advancement of Nations With the world becoming more connected happenings in far flung places are increasingly becoming risk factors locally precipitating issues of local concern and increasing the impediments to collective human development All these may appear to be abstract concepts in daily life where making the next pay check putting food on the table or securing a comfortable future for oneself and family is an exhausting endeavor but those who ignore the harbinger flicks subject themselves to ongoing or future succumb The story of the founding of Kenya as a country and the continuous strides towards nationhood is similar to many countries globally that have had a monarchy in their founding DNA Indeed some countries have excelled in building institutions that ensure an equitable society while some continue to struggle with cartelization and usurpation of independence of institutions and commensurately experience unjust societal confluence where only a few enjoy the benefits of a nation wide toil Why you should get the best historical book you are yet to read *Unprecedented Insight* Offering a fresh and unparalleled perspective this book provides a deep dive into Kenya's history in two volumes shedding light on pivotal moments and influential figures that have shaped the nation *McKenzian Blueprint Unveiled* The book meticulously explores the McKenzian Blueprint a historical phenomenon that continues to influence Kenya's social economic and political landscape Readers will gain a profound understanding of its origins implementation and lasting effects *Compelling Narration* An engaging writing style and thorough research make complex historical events accessible to a broad audience ensuring an absorbing and enlightening reading experience *Companion Comic Book* Enhance your understanding with the companion comic book of the same title Featuring vivid graphic illustrations the comic book brings key historical moments to life making it an excellent educational tool and an engaging supplement to the main text
