2015 Divine Word Intake:

Divine Consumption Stephen A. Dueppen, 2022-12-31 Kirikongo is an archaeological site composed of thirteen remarkably well preserved discrete mounds occupied continually from the early first to the mid second millennium AD. It spans a dynamic era that saw the growth of large settlement communities and regional socio political formations development of economic specializations intensification in interregional commercial networks and the effects of the Black Death pandemic. The extraordinary preservation of architectural units activity areas and industrial zones provides a unique opportunity to discern the cultural practices that created stratified mounds. This part of West Africa Building from a new detailed zooarchaeological analysis and refinements in stratigraphic precision this book argues that repeated ritual activity was a significant factor in the accumulation of stratified archaeological deposits. The book details consistencies in form and content of discrete loci containing animal bones food remains and broken and unbroken objects and suggests that these are the remnants of sequential ancestor shrines created when domestic spaces were converted to tombs or dedicated mortuary monuments were constructed. Continuities and transformations in ancestral rituals at Kirikongo inform on earlier West African ritual practices from the second millennium BC as well as political and social transformations at the site. More broadly this case study provides new insights on anthropogenic mound tell formation processes social zooarchaeology material culture theory historical ontology and the analysis of ritual and religion in the archaeological record. Winner of the 2023 SAfA Book Prize for a book that has been successful in taking African archaeology to a world audience. *Heavenly Arcana which are in the Sacred Scripture Or Word of the Lord, Laid Open, Together with Wonderful Things which Were Seen in the World of Spirits and in the Heaven of Angels* Emanuel Swedenborg, 1847 **Arcana Cœlestia. It hosts Zoom prayer groups and pornographic videos religious revolutions and silly cat videos. Platforms such as social media podcasts blogs and digital Bibles all constitute new arenas for debate about social and religious boundaries theological and ecclesial orthodoxy and the internet's inherent danger and value. In *The Digital Evangelicals* Travis Warren Cooper locates evangelicalism as a media event rather than as a coherent religious tradition by focusing on the intertwined narratives of evangelical Christianity and emerging digital culture in the United States. He focuses on two dominant media traditions media sincerity immediate and direct interpersonal communication and media promiscuity communication with the

primary goal of extending the Christian community regardless of physical distance Cooper whose work is informed by ethnographic fieldwork traces these conflicting paradigms from the Protestant Reformation through the rise of the digital and argues that the tension is culminating in a crisis of evangelical authority What counts as authentic interaction Who has authority over the circulation of information While many studies claim that technology influences religion The Digital Evangelicals reveals how Protestant metaphors and discourses shaped the emergence of the internet and explores what this relationship with global new media means for evangelicalism

Divine Assemblies in Early Greek and Babylonian Epic Bernardo Ballesteros, 2024-11-05 In early Greek and Near Eastern myth and religion the gods govern the cosmos In narrative poetry they are frequently portrayed through scenes of divine assembly Did Homer and early Greek poets inherit this feature from their more ancient neighbours And what can comparison

tell us besides This book is the first to chart divine assembly scenes in ancient Babylonian and early Greek epic It asks why similarities between the two corpora exist and exploits those similarities to enhance understanding of Mesopotamian and early Greek literature and religion The book discusses Sumerian narrative poems the Akkadian works Atra as s Anz En ma eli Erra and I um and the Epic of Gilgame Homer s Iliad the Odyssey Hesiod s Theogony and some Homeric Hymns It studies poetic technique and probes further comparisons with Sanskrit Old Norse Polynesian and Aztec mythology It argues that Greek speakers are unlikely to have inherited the divine assembly from the Near East Still one can posit a long term process of oral contact and communication fostered by common poetic structures and religious affinities In a second part pursuing a mythological and religious comparison the book concentrates on ideas about the cosmos and humankind and on power dynamics within the pantheon as well as between gods and mortals A focus on the head of the pantheon and on concepts of divine prerogatives illuminates culture specific differences which can be related to historical socio political discourses The book develops a systematic approach to questions of cross cultural literary comparison in the ancient world
