

Correct use of safety belts

- ▶ Wear the belt twist-free and as tight to your body as possible over your lap and shoulders.
- ▶ Wear the belt deep on your hips over your lap. The belt may not press on your stomach.
- ▶ Do not wear the belt on your throat, rub it on sharp edges, guide it or jam it in across hard or fragile objects.
- ▶ Avoid thick clothing.
- ▶ Re-tighten the belt frequently upward around your upper body.

Buckling the belt

General information

Make sure you hear the latch plate engage in the belt buckle.

Tensioning the safety belt automatically

When the belt is closed, the driver's and passenger's belt straps are automatically tightened once after driving away.

Unbuckling the belt

1. Hold the belt firmly.
2. Press the red button in the belt buckle.
3. Guide the belt back into its roll-up mechanism.

Safety belt reminder for driver's seat and front passenger seat

The indicator lamp lights up and a signal sounds. Make sure that the safety belts are positioned correctly. The safety belt reminder is active at speeds above approx. 6 mph/10 km/h. It can also be activated if objects are placed on the front passenger seat.

Safety mode

In critical situations, e.g., during full brake application, the front safety belts tighten automatically.

If the situation passes without an accident occurring, the belt tension relaxes.

If the belt tension does not loosen automatically, stop the vehicle and unbuckle the belt using the red button in the buckle. Fasten the belt before continuing on your trip.

Damage to safety belts

WARNING

The protective effect of the safety belts may not be fully functional or fail in the following situations:

- ▶ Safety belts are damaged, soiled or changed in any other way.
- ▶ Safety belt buckle is damaged or heavily soiled.
- ▶ Belt tensioners or belt retractors were modified.

Safety belts can be imperceptibly damaged in the event of an accident. There is risk of injuries or danger to life. Do not modify safety belts, safety belt buckles, belt tensioners, belt retractors or belt anchors and keep them clean. Have the safety belts checked after an accident at the dealer's service center or another qualified service center or repair shop. ◀
