2015 Deadline For Biust:

Economic Diversification in Africa Imogen Mogotsi, Ndateelela Namwoonde, 2023-08-29 Botswana is a major producer of the world's diamonds and has been a pacesetter for beneficiation in the country. All mineral resources are finite. Botswana is working towards diversifying the economy before the diamonds run out. As one of the most stable and prosperous countries in Africa, Botswana sets an example to follow. This book gives a practical review of topical issues and the roles of government, the private sector, economic institutions, and the international community in driving economic diversification. It highlights challenges faced by many small open economies in Africa as they search for new engines of growth. Tertiary Education at a Glance 2015, 2015 *Gas, Water and Solid Waste Treatment Technology* Zhien Zhang, Avelino Núñez-Delgado, Wenxiang Zhang, 2021-09-01 This book introduces a variety of treatment technologies such as physical, chemical, and biological methods for the treatment of gas emissions, wastewater, and solid waste. It provides a useful source of information for engineers and specialists as well as for undergraduate and postgraduate students in the areas of environmental science and engineering.

Globalization, Mass Education and Technical and Vocational Education and Training Miriam Preckler Galguera, 2018-06-05 This book assesses the influence of the international organization UNESCO on the development of national Technical and Vocational Education and Training (TVET) systems in the Southern African Community Region (SADC), focusing particularly on Botswana and Namibia. Designed around UNESCO's Better Education for Africa's Rise (BEAR) project, the study is an excellent example of applied policy research. Analysis is from the perspective of key stakeholders including UNESCO headquarters and field offices, Ministries of Education and of Labor, employers and employees, education and training institutions, international partners, and more. Both qualitative and quantitative evidence are used to provide a comparative overview, and the author also reveals the current state of data on skills. Readers will discover common goals and challenges across the nations but also a common lack of action to measure the impact and influence that UNESCO's programs have had at a national level prior to this study. Were the newly implemented educational policies successful or not? If the public policies failed, why was that? These chapters shed light on such questions and how UNESCO's contribution influenced the national development processes in the context of globalization processes and trends of global mass education. The book has much to offer for both scholars and those working in UN agencies or national governments who seek to develop education systems and better link them to the world of work. **Putin's Russia and the Falsification of History** Anton Weiss-Wendt, 2020-09-03 This book provides a bold examination of the political use of history in contemporary Russia. Anton Weiss-Wendt argues that history is yet another discipline misappropriated by the Kremlin for the purpose of rallying the population. He explains how, since the pro-democracy protests in 2011-12, the Russian government has hamstrung independent research and aligned state institutions in the promotion of militant patriotism. The entire state machinery has been mobilized to construe a single glorious historical narrative with the focus on Soviet victory over Nazi Germany. Putin's

Russia and the Falsification of History examines the intricate networks in Russia that engage in historymaking Whether it is the Holocaust or Soviet mass terror Tsars or Stalin the regime promotes a syncretic interpretation of Russian history that supports the notion of a strong state and authoritarian rule That interpretation finds its way into new monuments exhibitions and quasi professional associations In addition to administrative measures of control the Russian state has been using the penal code to censor critical perspectives on history typically advanced by individuals who also happen to call for a political change in Russia This powerful book shows how history is increasingly becoming an element of political technology in Russia with the systematic destruction of independent institutions setting the very future of History as an academic discipline in Russia in doubt
