Risk in the Global Real Estate Market Mike C. I. Nwogugu, 2012-01-26 Essential reading for professional investors risk managers regulators central bankers and real estate professionals *Risk in the Global Real Estate Market* International Risk Regulation Mechanism Design Foreclosures Title Systems and REITs takes an international look at the ways in which U S style constitutional laws financial laws and real estate laws in various countries affect global economics and risk and analyzes specific constraints that deter market development such as Asset Liability Matching inappropriate financial products land title systems inefficient constitutions and human biases The sub prime mortgage crisis that began around 2006 and the Global Financial Crisis of 2007 2010 disrupted the economies of various countries and exposed many of the psychological social and economic problems inherent in the legal risk infrastructure for mortgages land title systems REITs securitization and pensions In this remarkable new book Michael Nwogugu explains how these processes and statutes are unconstitutional and inefficient and how they influence demand for housing real estate prices retirement savings household wealth consumer disposable income marriage opportunities job markets crime and regional economic growth The resulting major economic and public health problems have continued to reduce the quality of life of nations and continue to cause permanent declines in wealth increases in crime and delinquency high divorce rates depression and inadequate job creation among other problems The book examines a range of fields including mechanism design psychology risk finance and corporate governance and emphasizes Constitutional economics as a distinct dimension of risk analysis *Risk in the Global Real Estate Market* makes a compelling case about how constitutional torts increase information asymmetry transaction costs agency problems and compliance costs as well as inefficiency in real estate transactions These problems the book argues are not unique to the

United States but also affect Commonwealth countries and other nations that have developed regulations that are similar to or are based on U S commercial securities and or constitutional laws Risk in the Global Real Estate Market presents a novel analysis of the sub prime crisis that first began in 2006 the failure of securitization CMBS MBS markets the Global Financial Crisis and socio economic problems caused by traditional mortgages and securitization The book reveals that many of the statutes and processes that define mortgages foreclosures securitization and REITs in the United States and many common law countries and nations that have adopted American style real estate regulations are fundamentally unconstitutional and inefficient and have lasting negative effects on consumer psychology the demand for real estate price discovery in property markets economic growth and quality of life The book examines the nature of constitutional torts and property rights as the foundation for business transactions and economic growth within the context of risk regulation interstate commerce takings and legislation Risk in the Global Real Estate Market introduces new theories of consumer psychology and institutional dynamics in real estate transactions presents new theories of takings and also surveys psychology psychiatry studies based on data from various countries that confirm the harmful effects of mortgages securitization and foreclosures Using elements of mechanism design Michael Nwogugu develops new efficient financial products Mortgage Alternatives products and presents a policy framework for a unified Mortgage Alternatives market for the CEE CIS region and China He also explains why Asset Liability Matching hinders lending capital formation and risk management especially in developing countries

Global Housing Markets Ashok Bardhan, Robert H. Edelstein, Cynthia A. Kroll, 2011-10-27 A global look at the reasons behind the recent economic collapse and the responses to it The speculative bubble in the housing market began to burst in the United States in 2007 and has been followed by ruptures in virtually every asset market in almost every country in the world Each country proposed a range of policy initiatives to deal with its crisis Policies that focused upon stabilizing the housing market formed the cornerstone of many of these proposals This internationally focused book evaluates the genesis of the housing market bubble the global viral contagion of the crisis and the policy initiatives undertaken in some of the major economies of the world to counteract its disastrous affects Unlike other books on the global crisis this guide deals with the housing sector in addition to the financial sector of individual economies Countries in many parts of the world were players in either the financial bubble or the housing bubble or both but the degree of impact outcome and responses varied widely This is an appropriate time to pull together the lessons from these various experiences Reveals the housing crisis in the United States as the core of the meltdown Describes the evolution of housing markets and policies in the run up to the crisis their impacts and the responses in European and Asian countries Compares experiences and linkages across countries and points to policy implications and research lessons drawn from these experiences Filled with the insights of well known contributors with strong contacts in practice and academia this timely guide discusses the history and evolution of the recent crisis as local to each contributor s part of the world and examines its distinctive and common features with that of the U S the
