The Music Business for Music

Creators Jonny Amos, 2024-06-28 The Music Business for Music Creators is a roadmap to understanding the traditional and emerging income streams that define the modern music industry. It presents the key concepts and principles that underpin the business with an emphasis on educating and empowering the next generation of music creators to build a career from their creative pursuits. The book provides a comprehensive overview of the mechanics of the music business from music publishing, marketing, and contract negotiation to licensing, streaming, and performing. This accessible guide is written with music creators in mind and features case studies, profiles, and interviews with established professionals, as well as a glossary of key terms to empower the reader in their understanding of the industry, alongside a number of useful accompanying digital resources. This book is core reading for students of music business and music creation in contemporary music education and an essential resource for those on music production and music performance courses, as well as aspiring and early career professionals.

Advances in Artificial Intelligence - IBERAMIA 2022 Ana Cristina Bicharra Garcia, Mariza Ferro, Julio Cesar Rodríguez Ribón, 2023-01-03 This book constitutes the refereed proceedings of the 17th Ibero American Conference on Artificial Intelligence IBERAMIA 2022 held in Cartagena de Indias, Colombia, in November 2022. The 33 full and 4 short papers presented were carefully reviewed and selected from 67 submissions. The papers are organized in the following topical sections: applications of AI, ethics and smart city, green and sustainable AI, machine learning, natural language processing, robotics, and computer vision, simulation and forecasting.

Music in Esports Eulalia

Febrer-Coll, 2025-07-21 This book invites the reader to expand their idea of esports as an independent niche and consider it an integral part of a growing multi- and transmedia ecosystem that includes the global entertainment industry, where music plays an essential role. The music present in and around esports games is an integral part of how they are communicated and mediated and, as such, holds a central role in binding their narratives cohesively and coherently to appeal to their audiences. Popular music theory is placed at the foundation of the issues raised in the chapters, as it is taken as a cornerstone for linking the esports international scene with the music industry. This text uses specific case studies from popular esports to support and illustrate each chapter, including League of Legends, Counter Strike, and Fortnite. This book will be of great interest to researchers and students in the fields of esports, game design and development, musicology, and media studies.

Easy R

Elizabeth Gohmert, Quan Li, Douglas Wise, 2020-01-02 Do you want to learn R? This book is built on the premise that anyone with a bit of free time and a healthy curiosity can learn to use R in their studies or at work. The authors focus on using R to do useful things like writing reports, creating data and graphs, accessing datasets collected by others, preparing data, and conducting simple data analysis. In this book, you will learn how to install R and RStudio and set up an RStudio project and folders, write an essay with graphs based on simple real-world data using R Markdown, create variables from everyday numeric information, and visualize data through five types of charts: bar plot, histogram, pie chart, scatter plot, and time series.

line plot to identify patterns in the data write and run R programs and prepare your data following the tidyverse approach import external datasets into R install R data packages and carry out initial data validity checks conduct exploratory data analysis through three exercises involving data on voting outcomes natural resource consumption and gross domestic product GDP via data visualization correlation coefficient and simple regression and write a research paper on the impact of GDP per capita on life expectancy using R Markdown Student friendly language and examples such as binge watched shows on Netflix and the top 5 songs on Spotify cumulative learning and practice exercises make this a must have guide for a variety of courses where data are used and reports need to be written Code and datasets used to carry out the examples in the book are available on an accompanying website [The 5 Steps to Get Your Songs Heard](#) Stephen Robert

Cass,2022-06-06 Do you have the dream of honoring God and hearing your songs sung in local churches Throw away the thinking that says you re not a good enough songwriter Any person called by God to write songs can fulfill their dreams Young or old Experienced writer or not Let me show you how to get your songs heard by learning the ways of congregational songwriting Would you like a well defined process to help make that a reality Join Stephen Robert Cass as he shines a light on the pathway of ministry and song success showing you the value of congregational songwriting Stephen Robert Cass has been playing singing and leading worship for over 50 years He has 70 songs in his CCLI catalog and wants to show you and like minded songwriters how to get your songs published there Fulfill your dreams and honor God by learning this unique songcraft using custom tools and a blueprint in touch with the heart of worship This strategy and the custom song crafting tools are inspired by Proverbs 27 17 As iron sharpens iron so we sharpen each other This plan finds strength in God s wisdom and the power of group learning Let it take your songs to churches in your community and around the world **Hybrid**
