

CAUTION: Always remove key from the ignition and lock all doors when leaving car unattended.

Key-In-Ignition Reminder

If the driver's door is opened when the key is in the ignition lock, a signal will sound to remind you to remove the key.

Ignition Switch Lamp

The switch is lighted when the driver's door is open. The lamp will remain on for approximately 20 seconds after door is closed to facilitate inserting the key.

SECURITY AGAINST THEFT

Over 1 million vehicles were stolen last year!

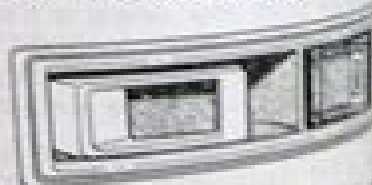

In many states it is against the law to leave the ignition keys in an unattended vehicle. Your new vehicle has excellent built-in security; but, you must use it!

Theft Prevention Labels

The Federal Motor Vehicle Theft Prevention Standards require certain major components on your vehicle to be labeled with the vehicle identification number. The purpose of this regulation is to reduce the incidence of vehicle theft and to assist in the recovery of stolen parts. These labels should not be altered or removed.

DOOR LOCKS

The front doors are locked by pushing the forward portion of the rocker lever. If the lever is in the lock position when the door is closed, the door will lock. Therefore, make sure the keys are not inside the car before closing the door.

Power Door Locks (If so equipped)

A door LOCK switch is mounted on each door armrest. This switch, when pressed, will lock or unlock the door.

Power Windows (If so equipped)

Window controls, mounted on the console give the driver control of all door windows.

Trunk Lock and Release

The Trunk lock is operated from outside the car with the round-ended key. From inside the car the trunk lid can be released by lifting the remote cable release lever. The lever is located just outboard of the driver's seat riser, adjacent to the sill trim.

As a security measure, a remote release override lever is built into the trunk lid latching mechanism. Move the lever inward before closing the trunk lid, and the remote release will not function.

Fuel Filler Door Release

The fuel filler door can be opened from inside the vehicle by lifting a remote release lever. The lever is located on the outboard side of the driver's seat riser, adjacent to the sill trim and identified with a fuel pump symbol.

Fuel Filler Door Emergency Release

A fuel filler door emergency release cable is located at the right side of the trunk trim.

SAFETY BELTS

Always use the safety belts. The chance of a serious injury is greatly reduced when the belts are properly used.

Safety belts provide protection against being thrown from the vehicle as well as reducing the risk of an injury caused by striking the interior of the vehicle.
