Muscolino's comprehensive and visually engaging coverage takes an in-depth look at palpation of muscle and bone along with trigger points and their pain referral patterns, stretching specific muscle treatment, and more. Amazing four-color artwork shows palpation of the muscle with muscle and bone illustrations drawn over full-color photos, offering you a better sense of exactly how the muscles look and where the muscle is located underneath the skin as it is being palpated. UNIQUE Stretching coverage provides more information on this effective treatment technique and helps you understand the role of stretching in treatment. UNIQUE Palpation photos help students and practitioners learn to identify muscles when the body is positioned the way they will encounter it in the massage setting. Specific massage-related assessment and treatment strokes are shown through illustrations and in the Palpation Notes, moving you from theory and assessment to practical application. Bone Palpation coverage teaches you to identify and palpate bones and bony landmarks.
