Organize and Complete Own Work Schedule

To successfully manage and run a business, both individual employees and the organization need to set and achieve work goals and objectives.

Work goals are defined as the personal, creative, and flexible focuses of employees.

Work objectives are the concrete, precise and specific descriptions of what the business needs to achieve.

These work goals and work objectives will differentiate between businesses as they run differently and may have a different focus.

- code of conduct - Expected behavior + what is expected from you
- policies and procedures - rules of an organisation + how they need to be followed
