Nieman,2011-12-01 Much of the current reassessment of race culture and criminal justice in the nineteenth century South has been based on intensive community studies Drawing on previously untapped sources the nine original papers collected here represent some of the best new work on how racial justice can be shaped by the particulars of time and place Although each essay is anchored in the local several important larger themes emerge across the volume such as the importance of personality and place the movement of former slaves from the capriciousness of plantation justice to the theoretically more evenhanded processes of the courts and the increased presence of government in daily aspects of American life Local Matters cites a wide range of examples to support these themes One essay considers the case of a quasi free slave in Natchez Mississippi himself a slaveowner who was reined in by his master through the courts while another shows how federal aims were subverted during trials held in the aftermath of the 1876 race riots in Ellenton South Carolina Other topics covered include the fear of black criminality as a motivation of Klan activity the career of Thomas Ruffin slaveowner and North Carolina Supreme Court Justice blacks and the ballot in Washington County Texas the overturned murder conviction of a North Carolina slave who had killed a white man the formation of a powerful white bloc in Vicksburg Mississippi agitation by black and white North Carolina women for greater protections from abusive white male elites and slaves crime and the common law in New Orleans Together these studies offer new insights into the nature of law and the fate of due process at different stages of a highly racialized society

Framing the Solid South Paul E. Herron,2017-06-02 The South was not always the South In the eighteenth and early nineteenth centuries those below the Potomac River for all their cultural and economic similarities did not hold a separate political identity How this changed and how the South came to be a political entity that coheres to this day emerges clearly in this book the first comprehensive account of the Civil War Era and late nineteenth century state constitutional conventions that forever transformed southern politics From 1860 to the turn of the twentieth century southerners in eleven states gathered forty four times to revise their constitutions Framing the Solid South traces the consolidation of the southern states through these conventions in three waves of development Secession Reconstruction and Redemption Secession conventions Paul Herron finds did much more than dissolve the Union they acted in concert to raise armies write law elect delegates to write a Confederate Constitution ratify that constitution and rewrite state constitutions During Reconstruction the national government forced the southern states to write and rewrite constitutions to permit re entry into the Union recognizing federal supremacy granting voting rights to African Americans enshrining a right to public education and opening the political system to broader participation Black southerners were essential participants in democratizing the region and reconsidering the nature of federalism in light of the devastation brought by proponents of states rights and sovereignty Many of the changes by the postwar conventions Herron shows were undermined if not outright abolished in the following period as Redeemers enshrined a system of weak states the rule of a white elite and the suppression of black rights Southern constitution makers in all three waves were connected to each other

and to previous conventions unlike any others in American history These connections affected the content of the fundamental law and political development in the region Southern politics to an unusual degree has been a product of the process Herron traces What his book tells us about these constitutional conventions and the documents they produced is key to understanding southern history and the South today The Works of the Most Reverend Dr. John Tillotson ...
