South Africa boasts high biodiversity among its flora and this is associated with many undiscovered medicinal plants with therapeutic potential To target this untapped resource the first step is to introduce these species to a wider spectrum of audience be they the academics who carry out research students interested in holistic medicine and healing or those working

in the natural product industry In this work we document a list of medicinal plants from Sub Saharan Africa that have been underestimated in their therapeutic value and not thoroughly studied Our book contains the recent scientific studies and validation on the individual plants Written and organised in an easily accessible way each entry includes specific information on the plant s distribution traditional usage and their phytochemical content In summary this book introduces new and exciting plants of Sub Saharan Africa in a comprehensive and well thought out format for academia pharmacists clinicians complementary and alternative medicine practitioners traditional healers industry and the general experienced or novice botanist

*Tourism Enterprises and Sustainable Development* David Leslie,2010-03-17 The tourism industry has increasingly recognized and responded to growing environmental concerns In recent years there has been an emergence of a variety of categories of tourism considered more environmentally friendly green eco tourism and sustainable tourism Much of the literature that has addressed these developments has been orientated to the destination locale or specific to a development These texts have not sought to investigate and examine the response of government national tourist organizations to the international sustainability agenda and the responses actions of tourism enterprises to this greening agenda This text aims to address this remarkable gap This indispensable contribution to the field provides a comprehensive state of the art perspective on progress towards the objectives of sustainable development within the tourism sector across the globe by focusing on the environmental performance and adoption of environmental management systems by tourism enterprises

**Going Beyond** Marie-Theres Albert,Francesco Bandarin,Ana Pereira Roders,2017-09-18 This volume looks at sustainable protection and sustainable use of cultural and natural heritage particularly in view of the current challenges of the 21st century For more than 40 years the World Heritage Convention has regulated the protection of the cultural and natural heritage of humankind particularly in that heritage shall be protected if it is threatened by modern development The international community has also adopted sustainability and sustainable development as objectives to facilitate the protection of cultural and natural heritage Sustainable heritage protection and use must therefore be preserved in the face of the global challenges it faces and must be perceived in terms of societal political and corresponding economic paradigms

Effective Teaching Around the World Ridwan Maulana,Michelle Helms-Lorenz,Robert M. Klassen,2023-06-27 This open access book brings together theoretical empirical methodological and practical insights from various countries on effective teaching It particularly focuses on discussing issues pertaining to effective teaching behaviour including definitions and conceptualizations measurement differences and importance to student outcomes from international perspectives The book will draw upon the rich cultures with diverse contexts involving Asia Australia Africa America and Europe which serve as the background setting to better understand teaching quality from a wide spectrum of educational systems and performances It shows that effective teaching behaviour can be conceptualized and operationalized uniformly using specific frameworks and measures but also addresses some limitations that should be tackled The book discusses promising ways to measure and

compare effective teaching behaviour from classical test theory CTT as well as item response theory IRT perspectives It indicates that effective teaching behaviour in diverse countries follows a systematic level of complexity which provides an avenue for ongoing teacher education and teacher professional development It discusses the interrelated domains of effective teaching behaviour including contemporary trends of differentiation The book continues with examining similarities and differences in effective teaching behaviour across countries It builds on the understanding of cultural traditions across countries as profoundly reflected in the classroom processes Resources in Education ,2000
