Emotion and the Structure of Narrative Film Ed S. Tan, 2013-10-16 Introduced one hundred years ago film has since become part of our lives For the past century however the experience offered by fiction films has remained a mystery Questions such as why adult viewers cry and shiver and why they care at all about fictional characters while aware that they contemplate an entirely staged scene are still unresolved In addition it is unknown why spectators find some film experiences entertaining that have a clearly aversive nature outside the cinema These and other questions make the psychological status of emotions allegedly induced by the fiction film highly problematic Earlier attempts to answer these questions have been limited to a few genre studies In recent years film criticism and the theory of film structure have made use of psychoanalytic concepts which have proven insufficient in accounting for the diversity of film induced affect In contrast academic psychology during the century of its existence has made extensive study of emotional responses provoked by viewing fiction film but has taken the role of film as a natural stimulus completely for granted The present volume bridges the gap between critical theories of film on the one hand and recent psychological theory and research of human emotion on the other in an attempt to explain the emotions provoked by fiction film This book integrates insights on the narrative structure of fiction film including its themes plot structure and characters with recent knowledge on the cognitive processing of natural events and narrative and person

information It develops a theoretical framework for systematically describing emotion in the film viewer The question whether or not film produces genuine emotion is answered by comparing affect in the viewer with emotion in the real world experienced by persons witnessing events that have personal significance to them Current understanding of the psychology of emotions provides the basis for identifying critical features of the fiction film that trigger the general emotion system Individual emotions are classified according to their position in the affect structure of a film a larger system of emotions produced by one particular film as a whole Along the way a series of problematic issues is dealt with notably the reality of the emotional stimulus in film the identification of the viewer with protagonists on screen and the necessity of the viewer's cooperation in arriving at a genuine emotion Finally it is argued that film produced emotions are genuine emotions in response to an artificial stimulus Film can be regarded as a fine tuned machine for a continuous stream of emotions that are entertaining after all The work paves the way for understanding and in principle predicting emotions in the film viewer using existing psychological instruments of investigation Dealing with the problems of film induced affect and rendering them accessible to formal modeling and experimental method serves a wider interest of understanding aesthetic emotion the feelings that man made products and especially works of art can evoke in the beholder Enemies Within Robert Alan Goldberg, 2008-10-01 divdiv There is a hunger for conspiracy news in America Hundreds of Internet websites magazines newsletters even entire publishing houses disseminate information on invisible enemies and their secret activities subversions and coverups Those who suspect conspiracies behind events in the news the crash of TWA Flight 800 the death of Marilyn Monroe join generations of Americans from the colonial period to the present day who have entertained visions of vast plots In this enthralling book Robert Goldberg focuses on five major conspiracy theories of the past half century examining how they became widely popular in the United States and why they have remained so In the post World War II decades conspiracy theories have become more numerous more commonly believed and more deeply embedded in our culture Goldberg contends He investigates conspiracy theories regarding the Roswell UFO incident the Communist threat the rise of the Antichrist the assassination of President John Kennedy and the Jewish plot against black America in each case taking historical social and political environments into account Conspiracy theories are not merely the products of a lunatic fringe the author shows Rather paranoid rhetoric and thinking are disturbingly central in America today With media validation and dissemination of conspiracy ideas and federal government behavior that damages public confidence and faith the ground is fertile for conspiracy thinking DIV DIV **Story Structure and Development** Craig Caldwell, 2025-03-25 Professor Craig Caldwell's Story Structure and Development provides a clear and practical approach to understanding the essentials of storytelling This book distills fundamental elements principles and structures explicitly tailored for animators game designers VFX artists and XR creators so they can seamlessly integrate these concepts into their work It is a comprehensive guide enriched with extensive insights and advice from industry professionals The thoroughly revised and

Law Wing Sang Lingnan University Hong Kong as a world city draws on a rich variety of foundational texts in film fiction architecture and other forms of visual culture The city has been a cultural fault line for centuries a translation space where Chinese-ness is interpreted for Westerners and Western-ness is translated for Chinese

Though constantly refreshed by its Chinese roots and global influences this hub of Cantonese culture has flourished along cosmopolitan lines to build a modern outward looking character

Successfully managing this perpetual instability helps make Hong Kong a postmodern stepping stone city and helps make its citizens such prosperous and durable survivors in the modern world This volume of essays engages many fields of cultural achievement

Several pieces discuss the tensions of English closely associated with a colonial past yet undeniably the key to Hong Kong's future Hong Kong provides a vital point of contact where cultures truly meet and a cosmopolitan traveler can feel at home and leave a sturdy mark
