 Handbook of Christianity in Africa from Apostolic Times to the Present Andrew Eugene Barnes, Toyin Falola, 2024-03-07 This
 comprehensive Handbook provides chapter length surveys of the history of Christian missions and Christian churches on the
 African continent since the time of Christ Africa is rapidly becoming the most Christianized region of the world While
 common narratives about Christianity tend to present Christianity as a set of ideas and beliefs imposed on Africa from the
 outside such narratives hold little meaning for African Christians or for those seeking to understand Christianity in Africa as
 an indigenous faith The aim of the Handbook is to propose a set of scholarly starting points for a new set of narratives The
 chapters collected here communicate an idea of Christianity as it has been embraced among African peoples at particular
 historical moments It therefore grants voice to the various strands of African Christianity on their own terms and offers
 scholarly study of what these voices teach us about how the world s most adhered to religion is practiced and understood on
 the continent of Africa **Journal of Moral Theology, Volume 2, Number 2** Christopher P. Vogt, 2013-09-06 The Church

 well as our deeply rooted tradition of inquiry about the moral life JMT s mission is to publish scholarly articles in the field of
 moral theology as well as theological treatments of related topics in philosophy economics political philosophy and
 psychology The JMT is sponsored by the Fr James M Forker Professorship of Catholic Social Teaching and the College of

 In Proverbs and the African Tree of Life Dorothy BEA Akoto Abutiate juxtaposes chosen sayings from Proverbs and selected
 Ewe Folk proverbs using the agricultural metaphor of grafting which she calls a hermeneutic of grafting Though these two
 sets of sayings come from completely different cultural contexts Akoto argues that folk sayings proverbs which abound in
 Africa should be considered as an already mature established tree on to which a piece of the biblical tree is spliced or

engrafted to produce hybridized fruits that have uniquely different tastes than the fruits of each tree individually This metaphorical grafting process allows the message of the Bible in Proverbs to be understood imbibed and appropriated in Africa *Theology as Construction of Piety* David T. Ngong,2013-12-10 This book argues that a primary purpose of theological discourses is to construct piety or spirituality If this is the case theologians need to constantly inquire into the kind of piety or spirituality which their work may construct Drawing from some important moments in the development of Christian theology such as the development of the Christian doctrine of God in the early church the role of material things in the Christianity of medieval Europe some elements of contemporary postliberal theology and the theology of inculturation in Africa the book argues that theological discourses that appear to be orthodox and innocuous may actually construct forms of piety that may diminish human flourishing The book therefore calls for an ethics of theology intended to ensure that the theologies we construct help in developing a piety that is conducive to human flourishing in the modern world especially for Africans who have suffered and continue to suffer unspeakable dehumanization The book proposes that a theology that may contribute to the flourishing of Africans in the modern world is one that constructs an interdisciplinary spirituality that takes both the spiritual and the scientific seriously
