

Workshop Manual Audi Quattro

Provisional repair instructions

2.2 litre fuel injection engine (K-Jetronic, turbocharger)
5-speed manual gearbox 016 4wd
Running gear
Body repair work
Electrical system

May 1980 edition

The Workshop Manual is divided into three booklets which can also be ordered separately and used individually at the different workdays as required. The booklets are valid for the Audi Quattro as from the start of production (May 1980). They contain repair notes for the repair groups listed on the inside front cover.

This booklet contains provisional repair notes for repair groups 10 to 97, as listed in the Contents on pages II and III, and describes important tests, adjustments and repair work. These instructions will be supplemented later either by Workshop Bulletins or a new edition of the booklet.

Where certain repair operations are not described, e.g. dismantling and assembling the gearbox or certain work on the engine, the repair groups concerned include notes on how to proceed in such cases.

Workshop Bulletins

Workshop Bulletins will be allocated to the individual booklets and should be filed at the back of the booklet concerned. To remind you that bulletins have been published, please mark the bulletin number by hand on the page of the manual given in the bulletin.

Fault finding

General fault finding instructions are incorporated in the Workshop Manual.

Further instructions on tracing and repairing likely faults are given in the "Fault Finding Handbook".

Technical information should always be made available to all foremen and mechanics because compliance with the instructions given is essential to ensure vehicle roadworthiness and safety. In addition, the normal safety precautions to be observed when working on motor vehicles are also applicable.
