20china Military Power Report:

Report to Congress of the U.S.-China Economic and Security Review Commission U.S.-China Economic and Security Review Commission,2016 **Xi Jinping's 'Chinese Dream'** Prashant Kumar Singh,2022-12-30 Singh analyses the influence of Xi's Chinese Dream on China's foreign relations and security postures Xi Jinping's rise has led to a paradigm shift in many aspects of China's domestic and international politics A key element of this has been the ideological vision shorthanded as the Chinese Dream combining elements of nationalism Confucian ideology and economic expansionism Singh evaluates the various changes in China's nominally communist ideology in the post Mao era with an emphasis on the implications for China's economic and security relations with other countries He particularly focusses on China's approach to South Asia and the Indian Ocean Region key elements of China's strategy An insightful guide to understanding the direction of China's foreign and security policy and especially its impact on India China relations *China and America: Destined for Conflict?* Wenzhao Tao,2022-09-25 This book explores the possibility and feasibility of building a new model of major country relations between China and the United States which is of great significance to the sound interaction between the two countries and the preservation of peace and stability of the world In early June 2013 Chinese President Xi Jinping and US President Barack Obama reached a consensus on building a new model of major country relations at the historical Sunnylands meeting in California In the years that followed the two leaders were committed to that goal despite the different interpretations in its substance How is the new model of major country relations conceptualized and developed What renders it possible Is the major country conflict inevitable These are the basic issues addressed in this book Now China US relations are at a critical juncture The international community is watching the world's two largest economies and is quite concerned about the future of one of the world's most complicated bilateral relationships This timely publication of Professor Tao Wenzhao provides us with a realistic approach to managing this vital relationship in a candid and balanced way China's Air Power and Maritime Strategies Towards the Indian Ocean Region Joshy M. Paul,2025-02-03 This book examines China's naval and airpower strategic direction towards the Indian Ocean region It discusses China's military modernization program along with naval and airpower capabilities including expeditionary nature It analyses China's attempt to gain a strategic dominance in the IOR by means of investments and trade with the littoral countries military diplomatic relationship with friendly countries permanent presence of naval systems in the Indian Ocean and delivering public goods throughout the region A comparative analysis of People's Liberation Army Air Force PLAAF expeditionary capabilities and Indian Air Force's IAF deterrence mechanisms is also included Print edition not for sale in South Asia India Sri Lanka Nepal Bangladesh Pakistan and Bhutan China's Evolving Surface Fleet Peter Dutton,Ryan D. Martinson,2017 Over the past fifteen years the People's Liberation Army Navy's PLAN's missile fast attack craft and amphibious fleets have been significantly modernized While these two types of vessels have not increased in numbers their capabilities have increased exponentially This

publication examines the People's Liberation Army's PLA's doctrine and training strategy in order to analyze present and predict future missions by these military vessels. China's deterrence posture is improved greatly by these ships and boats which aid coastal water defense and threaten Taiwanese attempts to gain independence. In addition, these two fleets improve China's long range sealift capabilities and help with the PLA's traditional and new nontraditional security practices. These fleets allow the PLAN to continue offshore operations and begin blue water or far seas operations helping the United States to predict the future nature of Chinese maritime missions. Chinese Grand Strategy in the 21st Century Thomas M. Kane, Noah Falkovich, 2023-10-20. This book examines the state of China's grand strategy in the 21st century including political, military, and economic factors. Over the past two decades, the People's Republic of China (PRC) has attained the second highest gross domestic product in the world, taken a leadership role in East Asian regional organizations, and substantially improved its military capabilities. Each of these developments and many others like them have attracted attention from scholars, journalists, and policymakers. Less frequently acknowledged but perhaps of greater significance is the impressive congruence of Beijing's accomplishments. This book highlights how the PRC's successes support one another and pave the way for future accomplishments and how these successes seem to be achieved in an unusually coherent and purposeful way. As Beijing's relations with the rest of the world continue to evolve with events ranging from the ongoing global economic crisis to the turbulence in China's own stock market which may bring the PRC's government under pressure to re-order its priorities, this book assesses China's grand strategy and long-term approach to national policy. It identifies the political, military, and economic instruments it is likely to use, the key challenges which it will face, and explores the implications for the global community. This book will be of great interest to students of Chinese politics, foreign policy, strategic studies, international security, and IR in general.
