Advances in Manufacturing III Adam Hamrol, Marta Grabowska, Damjan Maletič, 2022-05-09. This book reports on innovative strategies for quality control, risk assessment, and sustainable development in production processes in the era of industry 4.0. Based on peer-reviewed contributions to the 7th International Scientific Technical Conference MANUFACTURING 2022 held on May 16-19, 2022, in Poznań, Poland, the chapters cover important topics relating to the use of quality management strategies in different stages of the production processes. They report on methods for statistical process control, vision control, and inspection of machines; on the application of machine learning methods in quality control and/or risk assessment; on issues relating to digital transformation; and on methods to improve occupational safety. Besides industrial applications, the book also discusses the use of quality management tools for educational purposes. By bridging between concepts in quality engineering, ergonomics, digitalization, and industry 4.0, this book offers an authoritative source of information for researchers, engineers, and managers.
