Expeditionary Surgery at Sea Matthew D. Tadlock, Amy A. Hernandez, 2023-03-16. Currently, no comprehensive practical surgical textbook or other reference exists for the management of injured and other surgical patients at sea. This text focuses on the increasingly important field of medical and surgical management of patients in the modern expeditionary maritime environment. The editors and contributors to this new handbook are a group of physicians, nurses, and corpsmen with extensive experience in caring for patients in the expeditionary maritime environment, designing and implementing current doctrine and policy, and publishing peer reviewed articles focused on these topics. This handbook takes the approach of a how to manual for the management of combat or disaster victims, beginning at the point of injury and proceeding through each stage of care until they leave the maritime environment. This includes sections on prehospital care, triage en route, care, and maritime mass casualty management, as well as additional chapters covering unique aspects of maritime platforms, capabilities, and missions. The bulk of the book focuses on the initial patient evaluation and resuscitation, as well as the operative and perioperative phases of care, including prolonged casualty care. The primary focus throughout the book is on simple, practical, and proven practices that can be easily understood and implemented by physicians and independent providers of any experience level who may find themselves in similar situations. For the clinical chapters, each begins with a clinical vignette relevant to the chapter, based on actual patients or maritime scenarios experienced by the authors, demonstrating the various challenges that can occur caring for injured and surgical patients at sea while deployed on maritime and amphibious platforms. When appropriate, each clinical chapter will conclude by describing the recommended management and outcome of the patient's

presented in the vignette that opened the chapter The style is plain and direct language avoiding scientific jargon and unnecessary complexity whenever possible Each chapter begins with 5 to 10 bullet points that summarize the key information or BLUF bottom line up front from that chapter and conclude with common tips and pitfalls as well as recommended high yield resources for the entire maritime surgical team Handbook of Military Psychology Stephen V. Bowles, Paul T. Bartone, 2017-12-05 This expert compendium surveys the current state of military psychology across the branches of service at the clinical research consulting and organizational levels Its practical focus examines psychological adjustment pre and post deployment commonly encountered conditions e g substance abuse and the promotion of well being sleep mindfulness and resilience training Coverage pays particular attention to uses of psychology in selection and assessment of service personnel in specialized positions and training concerns for clinicians and students choosing to work with the military community Chapters also address topics of particular salience to a socially conscious military including PTSD sexual harassment and assault women s and LGBT issues suicide prevention and professional ethics Among the specific chapters topics covered Military deployment psychology psychologists in the forward environment Stress and resilience in married military couples Assessment and selection of high risk operational personnel processes procedures and underlying theoretical constructs Understanding and addressing sexual harassment and sexual assault in the US military Virtual reality applications for the assessment and treatment of PTSD Plus international perspectives on military psychology from China Australia India and more Grounding its readers in up to date research and practice Military Psychology will assist health psychologists clinical psychologists psychiatrists and clinical social workers in understanding and providing treatment for military populations veterans and their families as well as military psychologists in leadership and consulting positions
