Amusement Park: Coffee and Crime

Directions: Answer the following problems showing as much work as you can.

As you are drawing up the plans to build a coffee shop in your amusement park, a co-worker comes to you with a concern. He heard a news report that indicated that a coffee shop would bring more crime into the amusement park. To support this claim, your co-worker presented the following data and scatterplot (with the least squares line shown) for 8 counties in the state:

County	Shops	Crimes
A	9	4000
B	1	2700
C	0	500
D	6	4200
E	15	6800
F	50	20800
G	5	2800
H	24	15400

The scatterplot shows the positive linear relationship between "Shops" (the number of coffee shops of this particular chain in the county) and "Crimes" (the number of annual property crimes for the county). In other words, counties with more of these coffee shops tend to have more property crimes annually.

Bex,2011-02-15 In this book a theory of reasoning with evidence in the context of criminal cases is developed The main subject of this study is not the law of evidence but rather the rational process of proof which involves constructing testing and justifying scenarios about what happened using evidence and commonsense knowledge A central theme in the book is the analysis of ones reasoning so that complex patterns are made more explicit and clear This analysis uses stories about what happened and arguments to anchor these stories in evidence Thus the argumentative and the narrative approaches from the research in legal philosophy and legal psychology are combined Because the book describes its subjects in both an informal and a formal style it is relevant for scholars in legal philosophy AI logic and argumentation theory The book can also appeal to practitioners in the investigative and legal professions who are interested in the ways in which they can and should reason with evidence
