He argues that R & B, often dismissed as just a bunch of love songs yet the second most popular genre in terms of sales, can tell us much about the dynamic joys, apprehensions, tensions, and contradictions of contemporary black life. If we listen closely, with a voice as heartfelt and compelling as the best music, Neal guides us through the work of classic and contemporary artists ranging from Marvin Gaye to Macy Gray. In the first section of the book, *Rhythm*, he uses the music of Meshell N. Degeocello, Patti LaBelle, Jill Scott, Alicia Keys, and others as guideposts to the major concerns of contemporary black life: issues such as gender, feminist politics, political activism, black masculinity, celebrity, and the fluidity of racial and sexual identity. The second part of the book, *Blues*, uses the improvisational rhythms of black music as a metaphor to examine currents in black life, including the public dispute between Cornel West and Harvard President Lawrence Summers and the firing of BET's talk show host Tavis Smiley. *Songs in the Key of Black Life* is a remarkable contribution to the study of black popular music and valuable reading for anyone interested in how race is lived in America. **The Social Psychology of Trauma** Orla T. Muldoon, 2024-04-11 Discover a fresh social and political psychological perspective on the causes and consequences of trauma. **WALNECK'S CLASSIC CYCLE TRADER, DECEMBER 1999** Causey Enterprises, LLC, *Mediatization in Popular Music: Recorded Artifacts* Alessandro Bratus, 2019-10-10 In *Mediatization in Popular Music: Recorded Artifacts*, Performance on Record and on Screen, the relationship between performance, technological mediation, and the sense of live presence is investigated through a series of case studies related to popular music products. Alessandro Bratus explores technological mediation as a process of authentication that involves a chain of interconnected instances that have their roots in the cultural context in which the media products are designed to be marketed and that also shape its recording technique and post-production. The book analyzes posthumous records, a peculiar case of the organization of recorded tracks made in absentia of their original performers, that puts forward the possibility of an otherworldly collaboration between the living and the dead. Bratus also argues that the crucial significance of live performance for the construction of a personal, intimate relationship between performers and audiences reverberates in the audiovisual construction of the filmed concert in which the spectator is put in the position of a witness rather than an active participant. **WALNECK'S CLASSIC CYCLE TRADER, MAY 1999** Causey Enterprises, LLC, **WALNECK'S CLASSIC CYCLE TRADER, DECEMBER 1998** Causey Enterprises, LLC,
