The AIB International Consolidated Standards for Inspection are statements that represent key requirements that a facility must meet in order to keep products manufactured, processed or handled in a facility wholesome and safe. The Standards reflect what an inspector would expect to see in a facility that maintains a food-safe processing environment.

This report details the findings from an AIB International inspection against the Consolidated Standards. The document contains the following sections:

Document Section	Description
Score and Rating	x Description of the facility x Number of findings and related risks x Category scores and total score x Rating
Participant Names	Personnel from the facility who accompanied the inspector
Facility-Specific Questions	Technical information about a facility. For example: bulk materials used, temperature control equipment used.
Location Matrices	Two matrices which categorize findings by Category and Risk
Findings with Risk	Descriptions and recommendations related to all findings
Additional Comments	Comments made by the inspector that have no risk assessment
