Observing Children with Attachment Difficulties in School Kim S. Golding, Jane Fain, Cathy Mills, Helen Worrall, Ann Frost, 2012 An observational tool designed to help structure observations of children aged 5 11 with attachment issues in school Simple checklists and diagrams help to identify emotional and behavioural problems and hand outs with activities are provided to provide emotional support and identify appropriate interventions

Observing Children with Attachment Difficulties in Preschool Settings Kim S. Golding, Jane Fain, Ann Frost, Sian Templeton, Eleanor Durrant, 2012-11-01 For preschool children with emotional difficulties arising from difficulties in attachment standard observations used in early

years settings are not always helpful in identifying their problems and providing guidance on how they can be helped. Combining an accessible introduction to attachment and child development with a child observation tool for identifying behavior and the emotional needs underlying this behavior, this book enables early years professionals to identify problems and provide appropriate support. Case study boxes help to illustrate typical patterns of attachment and all aspects of behavior are covered, including play interaction with peers, neediness and aggression. A range of handouts and activities is included and guidance provided on how to work within professional boundaries. Written in clear, concise language, *Observing Preschool Children with Attachment or Emotional Difficulties* aims to equip the reader with the knowledge and skills needed to identify and support children's emotional and social difficulties. Suitable for use with children aged 2-5, this guide will be an invaluable resource for early years professionals as well as for use by clinicians, teachers and learning support staff.

Coaching Parents of Young Children with Autism Sally J. Rogers, Laurie A. Vismara, Geraldine Dawson, 2021-04-20. A growing body of evidence supports the benefits of high quality parent interventions for building social and communication skills in 0 to 5 year olds with autism spectrum disorder (ASD). How can clinicians coach parents to effectively incorporate learning opportunities into daily routines at home? From preeminent experts, this practical book explores the role of the coach and reviews the whys, whys and how-tos of successful collaboration with parents. Topics include structuring coaching sessions, identifying children's needs, facilitating playful engagement and deepening parents' understanding of how they can boost skills development during everyday activities. Seventeen reproducible handouts and forms include the multipage P-ESDM Infant Toddler Curriculum Checklist, ideal for use in telehealth assessments. Purchasers get access to a webpage where they can download and print the reproducible materials in a convenient 8 1/2 x 11 size. *The Place of Narrative in the Early Years Curriculum* Peter Baldock, 2006-08-21. Delving deeper into the understanding that young children have of stories, this book demonstrates how narrative competence develops in the first eight years of life and how this can be reflected in practice. *Sentence Processing* Roger P. G. van Gompel, 2013-09-11. What are the psychological processes involved in comprehending sentences? How do we process the structure of sentences and how do we understand their meaning? Do children, bilinguals and people with language impairments process sentences in the same way as healthy monolingual adults? These are just some of the many questions that sentence processing researchers have tried to answer by conducting ever more sophisticated experiments, making this one of the most productive and exciting areas in experimental language research in recent years. This book is the first to provide a comprehensive state-of-the-art overview of this important field. It contains 10 chapters written by world-leading experts which discuss influential theories of sentence processing and important experimental evidence, with a focus on recent developments in the area. The chapters also analyse research that has investigated how people process the structure and meaning of sentences and how sentences are understood within their context. This comprehensive and authoritative work will appeal to students and researchers in the field of sentence

processing as well anyone with an interest in psychology and linguistics

EMDR and The Art of Psychotherapy With Children Carolyn Settle, Robbie Adler-Tapia, 2008-06-16 This book contains invaluable material for the child therapist with varied theoretical backgrounds to more confidently apply EMDR to children. Frances Klaff for Journal of EMDR Practice and Research Volume 3 Number 3 2009. In this book the authors present an overview of how therapists can get started in conceptualizing psychotherapy with Eye Movement Desensitization and Reprocessing EMDR methodology through Adaptive Information Processing AIP theory. The focus of the book is to teach therapists to effectively use the entire EMDR protocol with young children. The first chapter provides a comprehensive overview of how to get started with EMDR after completing basic training. The book continues with chapters that detail the basic skills in using EMDR with children and then transitions to more advanced skills in using EMDR with children with specific diagnosis and presenting issues. They follow with a chapter summarizing the published evidence to date supporting the practice of EMDR with children. Data is then incorporated into a chapter summarizing their research on EMDR with young children in order to provide evidence of therapists ability to adhere to the EMDR protocol with children and to document their research findings about training therapists to use EMDR with children. Finally they conclude the book with goals for the future of EMDR with children while encouraging therapists to consider conducting research in order to compel the practice of EMDR with children into the mainstream of child psychotherapy. It is a major task of the book to inspire therapists to begin thinking about conducting research and how important research is to therapists in order to validate and advance the practice of psychotherapy. In the end the most significant goal of this book is to provide best practice for children who are in need of expert psychotherapy in order to

change the trajectory of their lives The hope is to provide guidance and support to therapists in order to launch them in their practice of EMDR This is the art of treating children with EMDR **EMDR and the Art of Psychotherapy With Children**
