Be Sure To See the New All-Steel McCormick-Deering

"This is the fourth thresher I have operated and have never seen any thresher run so light and do such a good job of cleaning the grain."

W. J. FRANK,
Centerville, Ohio.

"Want to say that I think it impossible to find a thresher able to do better work than the McCormick-Deering."

ROY SCHELL,
Albion, N. Dak.

"I have been a thresherman for the last thirty years and have never used a thresher that pleased me and my customers more than the McCormick-Deering."

C. L. RILEY,
Centerville, Ohio.

"Now I have threshed and cleaned threshing rigs since 1897, but this is the best rig that any man ever put a handle in."

MARK H. THOMPSON,
Branch, N. Dak.

"It is very light running, easy to operate, is a great grain saver and does a perfect job of cleaning. The ball-bearing cylinder is a wonderful feature as it requires little or no attention."

H. B. BERGQUIST,
Marquette, Minn.

LAST year the new McCormick-Deering all-steel thresher made a wonderful record for itself. All the evidence gives assurance of the satisfaction ahead for McCormick-Deering owners and operators for this season. The letters shown here are typical of many scores we have received.

The McCormick-Deering ball-bearing cylinder does away with the old plain-bearing nuisances. Forget the hourly oiling, the daily inspection, the frequent adjustments. Oil once a day is enough for these ball bearings, and inspection and adjustment are rarely required.

We believe the McCormick-Deering all-steel machine embodies all the best principles making for grain saving, economical operation and long life. It gives you simple, sturdy compactness without surplus investment in thresher or power. This thoroughly up-to-date machine, in one size or the other, is qualified to fill most any thresherman's needs. Coupled with the McCormick-Deering Tractor this makes a most practical outfit.

See the McCormick-Deering dealer and look the thresher over at your first opportunity. See its features, some of which are touched on here. Drop us a line and we will be glad to send you the new catalog.

INTERNATIONAL HARVESTER COMPANY

of America

406 So. Michigan Ave.

(Incorporated)

Chicago, Ill.

All-Steel Construction—

Withstands the strains of operation and transporting over rough roads. To all practical purposes fireproof and rust-proof.

Ball-Bearing Cylinder—

Ends the old cylinder bearing difficulties. McCormick-Deering thresher ball bearings are not affected by the natural factors that easily ruin plain bearings. One oiling a day—nothing more needed.

4-Section Revolving Straw Rack—

This balanced 4-section rack revolves instead of rotating or vibrating as in so many machines. Destructive vibration is eliminated and the machine runs very smoothly. Repairs are avoided and the life of the thresher extended.

The MODERN Thresher—All the Way Through—

Challenges comparison with all others. The feeder is designed and built for this machine by the Marysville Company. The wind whacker is mounted on the side of the machine, leaving the lower surface smooth so that no obstruction is offered to the passage of straw and chaff into the blower; prevents overloading of the screen and saves grain.

McCORMICK-DEERING ALL-STEEL THRESHER With Ball-Bearing Cylinder
