## **Canadian February Living Recipe:**

*AgExporter*, 2000      *Canada Poultryman*, 1994      **Recipes and Reciprocity** Hannah Tait Neufeld, Elizabeth Finnis, 2022-08-19 Recipes and Reciprocity considers the ways that food and research intersect for both researchers participants and communities demonstrating how everyday acts around food preparation consumption and sharing can enable unexpected approaches to reciprocal research and fuel relationships across cultures generations spaces and places Drawing from research contexts within Canada Cuba India Malawi Nepal Paraguay and Japan contributors use the sharing of food knowledge and food processes such as drying steaming mixing grinding and churning to examine topics like identity community based research ethics food sovereignty and nutrition Each chapter highlights practical and experiential elements of fieldwork incorporating storytelling recipes and methodological practices to offer insight into how food facilitates relationship building and knowledge sharing across geographical and cultural borders Contributors to this volume bring a range of disciplinary backgrounds including anthropology public health social work history and rural studies to the exploration of global and Indigenous foodways perceptions around ethical eating and authenticity language and food preparation perspectives on healthy eating and what it means to develop research relationships through food Challenging colonial heteropatriarchal and methodological divisions between academic and less formal ways of knowing Recipes and Reciprocity draws critical attention to the ways food can bridge disciplinary and lived experiences propelling meaningful research and reciprocal relationships      Culinary Landmarks Elizabeth Driver, 2008-04-05 Culinary Landmarks is a definitive history and bibliography of Canadian cookbooks from the beginning when *La cuisini re bourgeoise* was published in Quebec City in 1825 to the mid twentieth century Over the course of more than ten years Elizabeth Driver researched every cookbook published within the borders of present day Canada whether a locally authored text or a Canadian edition of a foreign work Every type of recipe collection is included from trade publishers bestsellers and advertising cookbooks to home economics textbooks and fund raisers from church women s groups The entries for over 2 200 individual titles are arranged chronologically by their province or territory of publication revealing cooking and dining customs in each part of the country over 125 years Full bibliographical descriptions of first and subsequent editions are augmented by author biographies and corporate histories of the food producers and kitchen equipment manufacturers who often published the books Driver s excellent general introduction sets out the evolution of the cookbook genre in Canada while brief introductions for each province identify regional differences in developments and trends Four indexes and a Chronology of Canadian Cookbook History provide other points of access to the wealth of material in this impressive reference book      **The Canadian Encyclopedia** James H. Marsh, 1999 This edition of The Canadian Encyclopedia is the largest most comprehensive book ever published in Canada for the general reader It is COMPLETE every aspect of Canada from its rock formations to its rock bands is represented here It is UNABRIDGED all of the information in the four red volumes of the famous 1988 edition is

contained here in this single volume It has been EXPANDED since 1988 teams of researchers have been diligently fleshing out old entries and recording new ones as a result the text from 1988 has grown by 50% to over 4 000 000 words It has been UPDATED the researchers and contributors worked hard to make the information as current as possible Other words apply to this extraordinary work of scholarship AUTHORITATIVE RELIABLE and READABLE Every entry is compiled by an expert Equally important every entry is written for a Canadian reader from the Canadian point of view The finished work many years in the making and the equivalent of forty average sized books is an extraordinary storehouse of information about our country This book deserves pride of place on the bookshelf in every Canadian Home It is no accident that the cover of this book is based on the Canadian flag For the proud truth is that this volume represents a great national achievement From its formal inception in 1979 this encyclopedia has always represented a vote of faith in Canada in Canada as a separate place whose natural worlds and whose peoples and their achievements deserve to be recorded and celebrated At the start of a new century and a new millennium in an increasingly borderless corporate world that seems ever more hostile to national distinctions and aspirations this Canadian Encyclopedia is offered in a spirit of defiance and of faith in our future The statistics behind this volume are staggering The opening sixty pages list the 250 Consultants the roughly 4 000 Contributors all experts in the field they describe and the scores of researchers editors typesetters proofreaders and others who contributed their skills to this massive project The 2 640 pages incorporate over 10 000 articles and over 4 000 000 words making it the largest some might say the greatest Canadian book ever published There are of course many special features These include a map of Canada a special page comparing the key statistics of the 23 major Canadian cities maps of our cities a variety of tables and photographs and finely detailed illustrations of our wildlife not to mention the colourful informative endpapers But above all the book is encyclopedic which the Canadian Oxford Dictionary describes as embracing all branches of learning This means that with rare exceptions there is satisfaction for the reader who seeks information on any Canadian subject From the first entry A mari usque ad mare from sea to sea which is Canada's motto and a good description of this volume's range to the Zouaves who mustered in Quebec to fight for the beleaguered Papacy there is the required summary of information clearly and accurately presented For the browser the constant variety of entries and the lure of regular cross references will provide hours of fascination The word encyclopedia derives from Greek expressions alluding to a grand circle of knowledge Our knowledge has expanded immeasurably since the time that one mind could encompass all that was known Yet now Canada's finest scientists academics and specialists have distilled their knowledge of our country between the covers of one volume The result is a book for every Canadian who values learning and values Canada

What's to Eat? Nathalie Cooke, 2009-09-01 How we as Canadians procure produce cook consume and think about food creates our cuisine and our nation of immigrant traditions has produced a distinctive and evolving repertoire that is neither hodgepodge nor smorgasbord Contributors who come from the diverse worlds of universities

museums the media and gastronomy look at Canada's distinctive foodways from the shared perspective of the current moment Individual chapters explore food items and choices from those made by Canada's First Nations and early settlers to those made today Other contributions describe the ways in which foods enjoyed by early Canadians have found their way back onto Canadian tables in the twentieth and twenty first centuries Authors emphasize the expressive potential of food practices and food texts cookbooks are more than books to be read and used in the kitchen they are also documents that convey valuable social and historical information
