6 Guide Social Media Literacy

Robert J. Bensley, Jodi Brookins-Fisher

A red circular graphic with a gradient, appearing as a partial circle or a stylized arrow pointing to the right, located behind the authors' names.

6 Guide Social Media Literacy:

The Teacher's Guide to Media Literacy Cyndy Scheibe, Faith Rogow, 2012 A Deeper Sense of Literacy is the first book to suggest that media literacy is both a content area and an approach to teaching that can be integrated into any subject area. It combines theory and practical application in a way that addresses the most important questions related to media literacy in education today: what is it, why is it important, how can you teach it across a wide range of curriculum areas and grade levels, and does it work? Rather than focusing on how to teach media literacy, Scheibe and Rogow focus on actually using media literacy to teach lessons across the content areas.

Social Web and Health Research Jiang Bian, Yi Guo, Zhe He, Xia Hu, 2019-06-29 This book presents state of the art research methods, results and applications in social media and health research. It aims to help readers better understand the different aspects of using social web platforms in health research. Throughout the chapters, the benefits, limitations and best practices of using a variety of social web platforms in health research are discussed with concrete use cases. This is an ideal book for biomedical researchers, clinicians and health consumers including patients who are interested in learning how social web platforms impact health and healthcare research.

Information Literacy Beyond Library 2.0 Peter Godwin, Jo Parker, 2012-03-23 This book offers practical strategies for all library and information practitioners and policy makers with responsibility for developing and delivering information literacy programmes to their users. This new book picks up where the best selling *Information Literacy meets Library 2.0* left off. In the last three years, the information environment has changed dramatically, becoming increasingly dominated by the social and the mobile. This new book asks: where are we now? What is the same and what has changed, and most crucially, how do we as information professionals respond to the new information literacy and become a central part of the revolution itself? The book is divided into three distinct sections. Part 1 explores the most recent trends in technology consumption and literacy, while Part 2 is a resource bank of international case studies that demonstrate the key trends and their effect on information literacy and offer innovative ideas to put into practice. Part 3 assesses the impact of these changes on librarians and what skills and knowledge they must acquire to evolve alongside their users. Some of the key topics covered are: the evolution of online into the social web as mainstream, the use of social media tools in information literacy, the impact of mobile devices on information literacy delivery, shifting literacies such as metaliteracy, transliteracy and media literacy, and their effect on information literacy readership. This is essential reading for all library and information practitioners and policy makers with responsibility for developing and delivering information literacy programmes to their users. It will also be of great interest to students of library and information studies, particularly for modules relating to literacy, information behaviour and digital technologies.

Community and Public Health Education Methods: A Practical Guide Robert J. Bensley, Jodi Brookins-Fisher, 2023-11-29 Updated to keep pace with this ever evolving field, the fifth edition of *Community and Public Health Education Methods: A Practical Guide* teaches students to effectively communicate health education messages and

positively influence the norms and behaviors of both individuals and communities Written by and for health education specialists this text explores the methods used by health educators including didactic techniques designed to guide others toward the pursuit of a healthy lifestyle Divided into four sections this well organized guide begins with a focus on building the foundation for selecting and applying community and public health education methods It then explores acquiring tools necessary for applying community and public health education and health promotion strategies Section III examines health communication and media including exploring social marketing concepts applying health communication skills using social media and exploring digital media strategies
