Jacquelyn L. Banasik, 2026-03-15. More than 1,500 questions in a variety of formats including labeling, multiple choice, true/false, fill-in-the-blank, compare/contrast, and matching. Case studies will feature questions that help students develop clinical reasoning and judgment, but because pathophysiology is used by more than undergraduate nursing students, we will be careful about branding them as strictly NGN. Case studies help students practice application of concepts and develop critical thinking skills. Answer key is conveniently located in the back of the study guide. Thoroughly updated to match the 8th edition of the textbook.
