

Snapshots proving

The most (practical) evidence I get using Habitica is that you're doing good things

Habits are a subconscious way of doing things that create strong bonds

How small habits make a difference and work in my favor?

What is Habit Stacking?

- something you do often
- usually without a lot of thought
- a perfect opportunity to trigger your next habit

Doing things come from our brains. The seed of every habit is a thought, tiny doesn't?

- James Clear

How to Get Started

Implementation intention
introduced by Peter Gollwitzer
that involves using the "If-Then" rule

If-Then rule

In simple terms, an implementation intention is when and where you will do something. The current habit becomes a cue to trigger a new action.

- Melissa May

BUILD POWERFUL HABITS

Stacking Similar Habits

Use for best results - stick with a similar type

Be realistic

Not enough people!

Start everyone a version of that time of day

Grow period!

Make your new habit something you can't wait to do every day

Avoid the Pitfalls

Be consistent

Plan a day
Get right into it

But you need to be prepared to make habits

Benefits include

1. Smooth transitions

You can move with more intention when

1. Better success

Get results in a shorter period of time

Once you have chosen one successfully next, you can add another one

4. Momentum to reach greater goals

By making things that are more than a habit more manageable

"Small habits don't add up, they compound. That's the power of atomic habits. Tiny changes. Remarkable results"

- Atomic habits by James Clear
