

TEN STEPS TO MINDFULNESS MEDITATION

Create time & space.
Choose a regular time each day for mindfulness meditation practice, ideally a quiet place free from distraction.

Set a timer.
Start with just 5 minutes and ease your way up to 15-40 minutes.

Find a comfortable sitting position.
Sit cross-legged on the floor, on the grass, or in a chair your feet flat on the ground.

Check your posture.
Sit up straight, hands in a comfortable position. Keep neck long, chin tilted slightly downward, tongue resting on roof of mouth. Relax shoulders. Close eyes or gaze downward 5-10 feet in front of you.

Take deep breaths.
Deep breathing helps settle the body and establish your presence in the space.

Direct attention to your breath.
Focus on a part of the body where the breath feels prominent: nostrils; back of throat; or diaphragm. Try not to switch focus.

Maintain attention to your breath.
As you inhale and exhale, focus on the breath. If attention wanders, return to the breath. Let go of thoughts, feelings or distractions.

Repeat steps 6-7.
For the duration of meditation session. The mind will wander. Simply acknowledge this and return to your breath.

Be kind to yourself.
Don't be upset if focus occasionally drifts or if you fall asleep. If very tired, meditate with eyes open and rearrange posture to more erect (but still relaxed) position.

Prepare for a soft landing.
When the timer goes off, keep eyes closed until you're ready to open them. Be thankful. Acknowledge your practice with gratitude.

Dr. Jonny Heaver, Ed Halliwell, 2021-10-19 Stress is endemic in our culture. We live in a speedy, pressurized world, and

there's often little time to really experience and enjoy our lives. Rather than constantly trying to keep up, perhaps it's time for us to stop and pay attention to our bodies, minds, and the world. For thousands of years, Eastern traditions have taught meditation to help people lead healthier, happier lives. Now, scientific research is confirming that mindfulness can help us all improve our mental and physical well-being. Written by Dr. Jonty Heaveresedge and Ed Halliwell, *The Mindful Manifesto* integrates the latest scientific and medical research on mindfulness with meditation's historical context. We will see how mindfulness can treat mental health problems such as depression and anxiety, help us cope with the busyness of everyday life, improve our physical health and manage chronic illness, help us let go of unwanted behaviors, and improve how we function in our relationships and jobs. And why stop there? With examples of how the mindfulness movement is already well underway, we see that encouraging governments and other powerful institutions to take a mindful approach could make a massive difference to the health and happiness of the whole world.

Mindfulness-Based Teaching and Learning Seonaigh MacPherson, Patricia Rockman, 2023-03-21.
