The Routledge International Handbook of the Arts and Education Mike Fleming, Liora Bresler, John O'Toole, 2014-11-27
This International Handbook brings together leading writers on Arts in Education to provide a much needed authoritative guide to the main debates in the field and an informed account of contemporary developments in policy and practice. Providing a detailed overview of key concepts and practical challenges, the book combines theoretical insight with specific examples of innovative projects drawing on theoretical, historical and empirical research perspectives to inform understanding. The range of content highlights the breadth of the field, addressing such issues as the importance of community arts and partnership as well as school education and providing insight into developments in multiple and connecting arts as well as traditional art forms. Topics such as assessment, creativity, cultural diversity, special needs, the arts in early childhood, adult education, arts based research are all addressed by recognised authorities in each area. The collection of chapters also serves to define the field of arts education, recognising its diversity but highlighting the common elements that provide its identity. The collection addresses generic issues common to all the arts while acknowledging differences and recognising the dangers of over generalisation. It also includes specific chapters on each of the art forms: visual art, dance, drama, literature, music, media arts, providing a cutting edge analysis of key contemporary issues in each subject. Bringing together specially commissioned pieces by a range of international authors, this Handbook will make an important contribution to the field of Arts Education.

2012, China and Beyond Daniel Marques, 2012-06-03
In this book, the Author from his experience as a Futurologist, Fortuneteller and Therapist, uses the same strategies and analytical models to explain the meaning of the near future in each person's life. For that purpose, there's a clear analysis on the role of China as the most powerful economy, the behavior of many world leaders, the thinking patterns of people on earth and the behavioral tendencies that by matching the previous information can allow to create a more definitive board of expectations. There's also a guidance to understand the events of the present and future with our own conscience and what should each person focus on in order for whatever situation may occur, change any predictability and save his or her own life. It is expected that with the information mentioned here, readers can more clearly know what to do, erase their fears and create a life path with more than what life has to offer or show.
