*Communication and Misinformation*  
Kevin B. Wright,2024-12-09 Exploring the influence misinformation has on public perceptions of the risk and severity of crisis events To what extent can social media networks reduce risks to the public during times of crisis How do theoretical frameworks help researchers understand the spread of misinformation Which research tools can identify and track misinformation about crisis events on social media What approaches may persuade those resistant to changing their perceptions of crisis events Communication and Misinformation presents cutting edge research on the development spread and impact of online misinformation during crisis events Edited by a leading scholar in the field this timely and authoritative volume brings together a team of expert contributors to explore the both the practical aspects and research implications of the public s reliance on social media to obtain information in times of crisis Throughout the book detailed chapters examine the increasingly critical role of risk and health communication underscore the importance of identifying and analyzing the dissemination and impact of misinformation provide strategies for correcting misinformation with science based explanations for causes of crisis events and more Addressing multiple contexts and perspectives including political communication reputational management and social network theory Communication and Misinformation Crisis Events in the Age of Social Media is an essential resource for advanced undergraduate and graduate students instructors scholars and public and private sector professionals in risk and crisis communication strategic communication public relations and media studies

The Routledge Handbook of Media Education Futures Post-Pandemic Yonty Friesem,Usha Raman,Igor Kanižaj,Grace Y. Choi,2022-09-13 This handbook showcases how educators and practitioners around the world adapted their routine media pedagogies to meet the challenges of the COVID 19 pandemic which often led to significant social economic and cultural

hardships Combining an innovative mix of traditional chapters autoethnography case studies and dialogue within an intercultural framework the handbook focuses on the future of media education and provides a deeper understanding of the challenges and affordances of media education as we move forward Topics range from fighting disinformation how vulnerable communities coped with disadvantages using media transforming educational TV or YouTube to reach larger audiences supporting students wellbeing through various online strategies examining early childhood parents and media mentoring using digital tools reflecting on educators intersectionality on video platforms youth produced media to fight injustice teaching remotely and providing low tech solutions to address the digital divide search for solutions collaboratively using social media and many more Offering a unique and broad multicultural perspective on how we can learn from the challenges of addressing varied pedagogical issues that have arisen in the context of the pandemic this handbook will allow researchers educators practitioners institution leaders and graduate students to explore how media education evolved during 2020 and 2021 and how these experiences can shape the future direction of media education Innovations and Challenges in Digital Literacies Rodney H. Jones, 2025-09-29 Innovations and Challenges in Digital Literacies questions whether the current theoretical frameworks and pedagogical practices around digital literacies are sufficient to confront the technological social and political crises around digital media that we are experiencing today Drawing on extensive research in digital literacies discourse analysis and sociotechnical systems Jones reimagines digital literacies not simply as skills for making meaning and navigating information but as a more holistic project of figuring out how to fix what is broken about the internet and our broader societies The book focuses on seven key sites of repair action attention affect affinity visibility truth and humanity each site offering insights into how agency emotions relationships knowledge and intelligence emerge through our entanglements with digital technologies The text aims to provoke debate about how we define digital literacies in an age of political polarisation and rapid technological change It provides powerful tools for teaching learning and living more ethically with digital media With this book Jones invites readers to see themselves not just as users of digital technology but as fixers of broken systems and caretakers of our increasingly fragile world This approach provides a framework for educators students and researchers to collaboratively develop practical strategies to challenge the logics of technological and social systems cultivating new literacies for an age of online misinformation algorithmic governance and generative AI Open Access for this book was funded by the University of Reading UK The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license **De Gruyter Handbook of Digital Cultures** Grant Bollmer, Katherine Guinness, Yiğit Soncul, 2025-09-22 As Digital Cultures becomes the dominant term used by many across a variety of intellectual fields to describe the social aesthetic and political impact of digital media it is necessary to provide a reference volume that specifies and defines the bounds of scholarly debates and curricular outlines for an otherwise amorphous interdisciplinary space This

handbook provides a comprehensive reference for the varied methodologies historical frames and theoretical perspectives essential for the study of Digital Cultures today In outlining these foundations it serves as a practical guide for educators and students into the broad range of perspectives grouped together for the critical historical and social scientific study of digital media It also looks into the future and outlines an agenda for future research by examining not only the origins of the concept of Digital Culture but emerging topics and themes still in development such as the relation between digital technology and climate change artificial intelligence and knowledge sensation and aesthetics and the rise of new infrastructures reinventing not only the built environment but the boundaries of nations and sovereignty Advances in

Design and Digital Communication V Nuno Martins, Daniel Brandão, 2024-12-23 This book reports on research findings and practical lessons featuring advances in the areas of digital and interaction design graphic design and branding design education society and communication in design practice and related ones Gathering the proceedings of the 8th International Conference on Digital Design and Communication Digicom 2024 held on November 7 9 2024 as a hybrid event in from Barcelos Portugal this book continues the tradition of the previous ones reporting on new design strategies to foster digital communication within and between the society institutions and brands By highlighting innovative ideas and reporting on multidisciplinary projects it offers a source of inspiration for designers of all kinds including graphic and web designers UI UX and social media designers and to researchers advertisers artists and brand and corporate communication managers alike **Combatting Misinformation and Global Nation's False Narratives Through Education** Ilik,

Goran, Karadjoski, Mladen, Ilijevski, Ice, Nenovski, Blagoj, 2025-06-20 In an era where the rapid spread of information is unprecedented misinformation and false narratives have emerged as pervasive threats to the integrity of public discourse and the functioning of democratic societies These challenges are not confined to a single region or culture but are global in nature often fueled by technological advancements that have transformed how information is disseminated and consumed From deepfakes and manipulated content to orchestrated disinformation campaigns the landscape of information has become a battleground where truth and falsehood vie for supremacy **Combatting Misinformation and Global Nation's False Narratives Through Education** explores the crucial role of education plays in addressing misinformation in the global information landscape This book delves into the multifaceted ways in which educational strategies can be employed to develop critical thinking skills media literacy and informed citizenry capable of discerning truth from falsehood Covering topics such as artificial intelligence false narratives and social media this book is an excellent resource for educators policymakers researchers practitioners researchers academicians and more
