Interventions for Traumatic Brain Injury Andrew P. Lavender, Ryusuke Takechi, Sarah C. Hellewell, Keisuke Kawata, 2025-10-28 Traumatic brain injury TBI is caused by a blow to the head or sudden ballistic head movement TBI can occur as a result of a collision such as in a motor vehicle accident or as a result of a fall which can happen in several contexts such as sport military service and training or accidental falling TBI is categorised as mild moderate or severe based on a number of signs and symptoms Multiple occurrences of injuries can have devastating consequences for patients when the injuries are in the mild category but repeated over several years as seen in sporting contexts In recent years the evidence for a link between mild traumatic brain injury and chronic traumatic encephalopathy CTE has been mounting rapidly Treatment of TBI varies greatly across the levels however mild TBI is often under reported and therefore may go untreated This is particularly common in sporting contexts where athletes and their coaches are very keen to reduce the recovery period and hasten return to play Common assessment methods may be insufficient for making the return to play decision New assessment methods are needed Rehabilitation methods also need to be optimised to ensure the player has fully recovered to protect the player and others from an increased risk of further injury This Research Topic focuses on brain injury assessment and interventions to improve recovery from mild moderate or severe TBI categories We welcome original research articles minireviews reviews comments and meta analyses employed in animal or human studies relevant to brain injury assessment and rehabilitation interventions Trauma Healing in the Yoga Zone Joann Lutz, 2021-07-19 Trauma Healing in the Yoga Zone describes an original model of Nervous System Informed Trauma Sensitive Yoga NITYA a synthesis of classical yoga somatic psychotherapy and neuroscience research It is organized around the eight branches of Raja Yoga and includes scripts for administering NITYA chair yoga postures breathing practices and yoga nidra the yogic sleep These can be used by

helping professionals with all levels of familiarity with yoga The book is needed for several reasons for mental health professionals it offers a comprehensive overview of yoga philosophy and practices as well as yoga based options for working with the client s embodied experience a major element in trauma healing For yoga professionals and practitioners it provides insight into the natural integration of yoga with polyvagal theory and other current approaches in the field of somatic psychology Both professions are currently being enriched by data from the field of neuropsychology that describes brain function in real time in various mental and emotional states This data supports yoga s effectiveness in regulating the autonomic nervous system a key to trauma recovery
