The Complete Guide to Yoga Props provides over 120 poses with more than 800 variations that use a yoga prop such as a block, strap, bolster, blanket, chair, or wall to modify progress or otherwise change the pose. The poses are grouped together as follows: Standing, kneeling, and lunging poses; Seated and squatting poses; Backbending and heart opening poses; Arm balances; Inversions; Prone poses; Supine poses. Packed with beautiful photos showcasing the pose variations, no other resource offers the sheer number of options to make your yoga practice truly personal for every body and need. Learn what to look for when choosing a prop and how and where to position it depending on whether you want to make a pose more challenging, need to make a pose more accessible, or just want to try something new. Each pose includes the English and Sanskrit names to aid in identification and help foster a deeper appreciation for the historical and traditional roots of yoga. Whatever form of yoga you prefer, using props can supply you with a limitless variety of ways to customize your practice. The Complete Guide to Yoga Props is an invaluable resource, an authoritative guide you will turn to again and again.

Breath, Body, Being: A Holistic Guide to Yogic Practice 2025 1-Savita Saklani 2.Sonam Devi 3. Dr. Shashi bala 4. Dr BS Dabral, PREFACE Yoga has always been more than a collection of postures, breathing techniques, or meditation practices. It is a lived experience, a way of aligning the breath, the body, and the being into harmony with life itself. In today's fast-paced world, many approach yoga either as a physical discipline for fitness or as a quick path to relaxation. Yet beneath these surface benefits lies a timeless science of self-awareness and transformation, carefully preserved and passed down through generations. This book, Breath, Body, Being: A Holistic Guide to Yogic Practice, is born from the recognition that yoga must be understood in its wholeness. Each chapter is designed as a step along a journey where the individual gradually deepens awareness of subtle energies, ethical foundations, therapeutic possibilities, and the integration of yoga into daily life. We begin with the breath, the bridge between the physical body and the inner world, exploring its role as the foundation of prana, the vital life force. From there, we honor the body as a sacred vessel, uncovering alignment principles that respect both safety and inner balance. Ethical guidance through the yamas and niyamas offers a compass for living while explorations of stillness reveal the quiet intelligence of the nervous system and fascia. As the journey unfolds, we turn to sequencing, mudra, bandha, and mantra as gateways to subtle power and onward to the energetic pathways of nadis and chakras that expand our inner maps of awareness. Dedicated chapters on pranayama, meditation, and Ayurvedic rhythms highlight the importance of balance, resilience, and integration. The book also emphasizes
