J. Randall,2019-02-06 This little book explores the Severn Valley and the places the railway passes through from Worcester to Shrewsbury as it was in 1863 The Severn like other English rivers may be said to have been a railway pioneer in having one built along its banks first in having done much to correct the inequalities of the surface secondly in having indicated the direction in which the traffic flowed so that early in the history of railway enterprise eminent engineers like the late Robert Stephenson saw the desirability of following its course and thus meeting the wants of towns that had grown into importance upon its banks In 1846 the route was finally surveyed by Robert Nicholson with a view to a through traffic in connection with other railways The scheme met with opposition from advocates of rival lines Ultimately however the Bill passed the committees of the two Houses and the promoters were successful whilst the expenses of counsel and witnesses were enormous The original estimate for the line was 600 000 110 000 for land and 490 000 for works 8 500 was down for a girder bridge at Arley 8 000 for one near Quatford 9 000 for one above Bridgnorth and 10 000 for one at Shrewsbury The two bridges near Bridgnorth and the one near Shrewsbury were abandoned and a considerable saving was effected by shortening the line at Hartlebury by a junction with the Oxford Wolverhampton and Worcester higher up than was originally intended The estimated cost of the works in consequence of these reductions and of the determination of the company to make it a single line was thus reduced to nearly one half the original sum Although the Severn Valley Railway joins the Main Trunk line at Hartlebury Worcester is regarded as its proper terminus and at that point we commence our description 10% of the publisher s profit from the sale of this book will be donated to UNICEF KEYWORDS TAGS Handbook severn valley railway Abberley Abbey Alveley ancient Apley arches architecture Arley Astley Baxter Bayliffs Beauchamp Bell flower Benthall Berkeley Berrington Bewdley botany bridge Bridge Bridgnorth Bristol British Railway Brycge building built Burlish canal Caradoc carboniferous carp Castle castle rocks Cathedral Caughley century chapter house Charles church churchyard city Coalbrookdale Coalport Conqueror Constantine construct cottages Cound countryside Court Coventry Cressage Danes daughter dilapidated distance Droitwich Duke Eardington Earl eastern Edward Elizabethan embankment England erect Esquire Ethelfleda Ethelwald existence famous first Fitz Alan Ford Foregate Forest founded George Stevenson Gloucester Hall Hampton handsome Hartlebury Haughmond Henry Hereford Hermitage Highley Hills His Eminence Ironbridge John King kingdom knight Leland lines London Lord machinery Madeley manufacture Market Milburgh miles monastery monks moonlight nature Norman Oxford Padmore parish Parliamentary Pembroke picturesque Plinlimmon Prince Quatford Queen railway relics remains rich Richard Roman royal ruins Salwarp Sandstone Saxon sedilia Severn river Shrewsbury Shropshire
