Targeting Mathematics □ **6** Pearl Scott, Sheetal Chaudhery, Shanti Dhulia, Lata Thergaonkar, Targeting Mathematics series consists of nine textbooks one for Primer and eight textbooks for classes 1-8. These books have been formulated strictly in accordance with the Continuous and Comprehensive Evaluation (CCE) approach of Central Board of Secondary Education (CBSE) and are based on the latest syllabus. The series also conforms to the guidelines of National Curriculum Framework 2005. The books have been written by experienced and renowned authors.

Number at Key Stage 1 Mike Askew, 1995. This book offers a set of core activities covering all areas of number and is ideal for planning your daily mathematics lesson. Sections in the book broadly correspond to the programmes of study for number at Key Stage 1. A section on differentiation helps you assess children's progress and set extension work.

Learning and Teaching Early Math Douglas H. Clements, Julie Sarama, 2020-12-29. The third edition of this significant and groundbreaking book summarizes current research into how young children learn mathematics and how best to develop foundational knowledge to realize more effective teaching. Using straightforward practical language, early math experts Douglas Clements and Julie Sarama show how learning trajectories help teachers understand children's level of mathematical understanding and lead to better teaching. By focusing on the inherent delight and curiosity behind young children's mathematical reasoning, learning trajectories ultimately make teaching more joyous, helping teachers understand the varying levels of knowledge exhibited by individual students. It allows them to better meet the learning needs of all children. This thoroughly revised and contemporary third edition of *Learning and Teaching Early Math* remains the definitive research-based resource to help teachers understand the learning trajectories of early mathematics and become confident, credible professionals. The new edition draws on numerous new research studies, offers expanded international examples, and includes updated illustrations throughout. This new edition is closely linked with *Learning and Teaching with Learning Trajectories LT 2*, an open access web-based tool for early childhood educators to learn about how children think and learn about mathematics.
