creators advertisers entrepreneurs researchers academicians and students      **The Go for It Neighbours** Melissa L. Manning, 2015-03-27 Rain Woodrow is an entrepreneur both at heart and by profession. She's not afraid to do whatever it takes to make her company a success. It's a work ethic that is about to come in handy at home too. One night she and her boyfriend Cullen Dangsi notice something remarkable happen. At a gathering of their neighbours, each stands up and pledges to work towards their highest aspirations and goals. There is power in numbers, they realise, and soon the neighbours are working together for both individual and community objectives. This cooperative spirit does not go unnoticed by the media, and soon the spotlight of public attention shines brightly on Sunlit Avenue. But that attention comes at a cost. It draws focus to those who aren't quite as dedicated to the communal projects as well as those who are jealous of what others are achieving. Why can't everyone be supportive of this initiative to make each other's lives better? Rain and Cullen work to solve the mystery so that they can achieve their dreams with or without the naysayers. The neighbours have a decision to make: do they allow themselves to be pulled down by toxic people or do they work even harder to accomplish their goals with renewed ambition?

**Energy Research Abstracts**, 1980 Semiannual with semiannual and annual indexes. References to all scientific and technical literature coming from DOE, its laboratories, energy centers, and contractors.
