Ford,Laurie W. Ford,2009-08-10 Talk is powerful Engaging in the right conversation at the right time is key to both personal and organizational success And it isn't just difficult conversations that matter The Four Conversations clearly demonstrates it is the everyday dialogue we have with one another that is critical Armed with a solid body of research and their own first hand observations Jeffrey and Laurie Ford identify four types of conversations that every one of us must use to get things done initiative conversations to introduce something new understanding conversations to help people relate to new ideas or processes performance conversations to request specific actions and results and closure conversations to complete work and give people a sense of accomplishment They identify the specific elements that make each of these conversations successful and show how they can be put together in different ways to achieve different objectives The Four Conversations demonstrates how to use the right conversation at the right time planning and starting each one well and finishing every conversation effectively to produce the results we want and the improved productivity our organizations need And through dozens of personal stories and sample dialogues the authors illustrate how real people in real situations have used the four conversations either alone or in combination to more effectively combat common workplace problems and lay the foundations for enduring success stronger relationships better buy in and a greater feeling of personal and professional achievement for everyone Integrated Management Systems Chad Kymal,Gregory Gruska,R. Dan Reid,2015-05-13 Updated to the latest standard changes including ISO 9001 2015 ISO 14001 2015 and OHSAS 18001 2016 Includes guidance on integrating Corporate Responsibility and Sustainability Organizations today are implementing stand alone systems for their Quality Management Systems ISO 9001 ISO TS 16949 or AS 9100 Environmental Management System ISO 14001 Occupational Health Safety ISO 18001 and Food Safety Management Systems FSSC 22000 Stand alone systems refer to the use of isolated document management structures resulting in the duplication of processes within one site for each of the management standards QMS EMS OHSAS and FSMS In other words the stand alone systems duplicate training processes document control and internal audit processes for each standard within the company While the confusion and lack of efficiency resulting from this decision may not be readily apparent to the uninitiated this book will show the reader that there is a tremendous loss of value associated with stand alone management systems within an organization This book expands the understanding of an integrated management system IMS globally It not only saves money but more importantly it contributes to the maintenance and efficiency of business processes and conformance standards such as ISO 9001 AS9100 ISO TS 16949 ISO 14001 OHSAS 18001 FSSC 22000 or other GFSI Standards Historical Archaeology of Childhood and Parenting April Kamp-Whittaker,Jamie J. Devine,Suzanne M. Spencer-Wood,2024-04-12 The study of childhood in historical archaeology enriches interpretations of

the past but also has the potential for contributing to the understanding of methodological and theoretical issues in archaeology Archaeologically children are understudied relative to both their demographic and social importance partly because children are viewed as difficult to discern in the archaeological record Historical archaeology with its access to historical documents to supplement and illuminate archaeological evidence provides an opportunity to gain a greater understanding of the ways children s daily lives in the past were expressed in historically changing types and patterns of material culture Recent research presented in this volume contributes valuable perspectives for conceptualizing the historically changing social nature of childhood and methods for illuminating the roles of children Case studies are designed to illustrate methodological and theoretical advances in the historical archaeology of materialized experiences discourses identities places and their meanings associated with parenting and childhood The volume is organized into three sections devoted to case studies about 1 how childhood and parenting have been socially constructed cross culturally and temporally 2 social ideologies of childhood in contested spaces and 3 the relationship between children s experiences and adult expectations of childhood Each chapter demonstrates advances in current methods or theories used in the archaeology of childhood A final discussant drawn from the broader field of research on the archaeology of childhood provides a commentary on the ways the perspectives provided in the volume can be employed by researchers outside the sub discipline of historical archaeology
