Operational Encirclements: Can The United States Military Decisively Follow Through? Major Scott Thomas, 2015-11-06 This study is a historical analysis of how encirclement operations have been and still are important offensive operations These operations need to be given priority in planning and execution by the United States Military Encirclement operations have proven to be decisive military operations throughout history regardless of the composition and disposition of the enemy encircled The U S military has maintained the decisive edge on the battlefield for over sixty years Even with the benefits of technology air supremacy firepower mobility and maneuver the U S military has not yet been completely successful in planning and executing encirclement operations Today the U S military is arguably the best equipped and trained force in history Even with this professional force it is questionable whether the U S military could successfully execute an encirclement operation Therefore this monograph provides a historical examination as to why the U S military has been unable to reap the benefits of the offensive maneuver of encirclement To accomplish this examination this monograph conducts an analysis of four historical case studies The Argentan Falaise Pocket the Battle of Ia Drang Doctrinal Revolution from 1986 2001 and Operation Anaconda The analysis identifies the U S military has placed an over reliance on firepower to replace the maneuver of ground combat units Secondly this monograph also argues the U S military has placed too much emphasis on technology This belief in technology has reduced the number of ground combat units employed in offensive operations Additionally U S military doctrine historically has not provided the foundation necessary to support and encourage the planning and execution of encirclement operations These deficiencies together have prevented the U S military from capitalizing on the decisive nature resulting from the speed and shock of correctly executed encirclement operations *United States Code Service, Lawyers Edition* United States, 1936
