Sustainability and Social Responsibility: Regulation and Reporting Graham Gal, Orhan Akisik, William Wooldridge, 2017-08-08 This book addresses key issues related to the choice between governments regulating and enforcing society's sustainability and social responsibility objectives and firms reporting on their sustainable and socially responsible activities so stakeholders can exert pressure on firms to achieve society's goals While these may be considered as the two endpoints of a continuum it is clear that there are differing perspectives on the role of governments in sustainability and responsibility At one end of this continuum are stakeholders who believe the only way to achieve a sustainable and socially conscious society is to establish and enforce regulations with the concomitant governmental organizations to oversee and enforce those regulations At the other end are those who consider firms to be crucial organizations for achieving sustainability and socially responsible outcomes and who feel it is the responsibility of stakeholders to determine the legitimacy of firms' actions It is probably not the case that any economies exist at either end of this continuum but it is clear that the availability of reliable information is critical for any stakeholder to review the performance of either the governments or the firms This book presents a varied set of papers that explore the issues that must be considered regardless of which position a stakeholder takes

Social Responsibility and Sustainability Walter Leal Filho, 2019-01-14 This book comprehensively describes social responsibility and sustainable development with contributions from scientists and representatives from industry working in the field The papers are innovative cross cutting and many share practice based experiences some of which may be replicable elsewhere Prepared by the Inter University Sustainable Development Research

Programme IUSDRP and the World Sustainable Development Research and Transfer Centre WSD RTC it reiterates the current need to promote social responsibility Social responsibility and sustainable development are two different concepts whose integration over the years has led to significant advances in the way enterprises see and perceive their operations It is not only about policies or steps taken to meet legal requirements but is also about social equality and environmental accountability also bearing in mind the links with eco efficiency innovation and the health and wellbeing of workers According to ISO 26000 social responsibility is the responsibility of an organisation for the impacts of its decisions and activities on society and the environment through transparent and ethical behaviour that a contributes to sustainable development including health and the welfare of society b takes into account the expectations of stakeholders c is in compliance with applicable law and consistent with international norms of behaviour d is integrated throughout the organisation and practised in its relationships But even though the relations between social responsibility and sustainability are strong it is still necessary to encourage organisations to adhere to or at least follow the principles of sustainable development in their operations giving something back to the community As such there is a need for a better understanding of how social responsibility is related to sustainable development and of the identification of processes methods and tools that may help the integration of these two important elements There is also a real need to showcase successful examples of how to structure behaviour and institutional practice in line with the sustainability challenges we face today Chapter Reviewing the Stakeholder Value Creation Literature Towards a Sustainability Approach is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com) **ICoSMI 2020** Eko Ruddy Cahyadi, Musa Hubeis, Mukhamad Najib, Rindah Febriana Suryawati, 2020-09-14 This book is the proceeding of the International Conference on Sustainable Management and Innovation ICoSMI 2020 that was successfully held on 14 16 September 2020 using an online platform The conference was mainly organized by the Department of Management IPB University in collaboration with Leibniz University of Hannover Universiti Putera Malaysia Kasetsart University Tun Hussein Onn University of Malaysia Tamil Nadu Teachers Education University Deakin University University of Adelaide Forum Manajemen Indonesia FE Pakuan University FE Gajah Mada University FEB University of North Sumatra and FEB Andalas University SBM Bandung Institute of Technology FEB Lampung University Perbanas Institute Jakarta FE Bina Nusantara University and SBE Prasetya Mulya University This conference has brought academic researchers business practitioners as well as graduate students together to exchange their experiences and research results about most aspects of innovation and sustainability and discuss the practical challenges encountered and the solutions adopted About 402 delegates across the world including Indonesia Malaysia Thailand Spain China and India have attended and presented their research works in the conference The proceeding consists of 80 high quality papers that were selected from more than 250 submitted papers The papers are classified into 12 themes namely Finance for Sustainability Industry 4 0 and Future Business Sustainability Policy and Strategy for Sustainable
