Understanding the Iglesia ni Cristo Anne C Harper, 2015-01-09 Does the Iglesia ni Cristo really teach that their buildings will go up in the rapture Do they use coercive methods to make sure their members give at least a tithe of their income to the church Have confrontational methods of evangelism been effective in reaching them The answers to these questions may surprise you In this groundbreaking and meticulously researched new book evangelical scholar Dr Anne Harper a Manila based missionary with Action International Ministries describes the history teaching growth and development of the Iglesia ni Cristo since its founding in 1914 and explains why this group has endured for the last 100 years and why it will not likely fade away Unlike other evangelical publications Dr Harper treats the Iglesia ni Cristo with respect and kindness while being careful not to agree with or endorse their teachings Thoroughly documented yet highly readable this book will go a long way to removing the false stereotypes that many born again Christians have of this group and challenge you to rethink how you feel towards them and respond in a biblical manner

The International Politics of Authoritarian Rule Oisín Tansey, 2016 Autocrats must overcome a range of challenges as they seek to gain and maintain political power including the threat that comes from both rival elites and discontented publics The International Politics of Authoritarian Rule examines the ways in which international forces can encourage and assist autocratic actors in overcoming these challenges Often autocratic incumbents are strengthened in power by events on the international stage and by the active support of international allies The book offers a typology of different international forms of influence on authoritarianism and examines the ways in which external forces shape autocratic rule at the domestic level The typology distinguishes between three broad forms of international influence passive influences unintended consequences and active forms of external autocratic sponsorship The book focuses in particular on the latter category and examines intentional autocratic sponsorship in the post Cold War period A central contribution of the book is to address the question of how international autocratic sponsorship can bolster authoritarian rule It highlights the ways in which international sponsorship can contribute to authoritarian practices in three significant ways by increasing the likelihood that authoritarian regimes will pursue authoritarian practices such as coups repression or election fraud by contributing to the implementation of those practices and finally by shielding autocratic actors from international punishment after such practices are pursued External sponsorship can thus lower the costs of authoritarian behaviour and protect and shield authoritarian regimes from the negative consequences of their actions Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford
