ML Morrison

Anand Move By Move:

Anand Zenon Franco, 2014 Viswanathan Anand is undoubtedly one of the World's greatest ever chess players. He first shot to fame in his youth when he enthralled the chess public with his results and his amazing speed of play. He became India's first ever grandmaster at the age of eighteen. He has won five World Championships and was the undisputed World Champion from 2007 to 2013. He has been the World's number one ranked player and one of the very few to break the 2800 rating barrier. His renowned versatility has helped him to become successful in all forms of the game: tournament play, match play, knockout and rapid play. In this book, Grandmaster Zenon Franco examines in detail Anand's chess career to date. He selects and studies his favourite Anand games and demonstrates clearly how we can all improve our chess by learning from Anand's play. *Move by Move* provides an ideal platform to study chess. By continually challenging the reader to answer probing questions throughout the book, the *Move by Move* format greatly encourages the learning and practising of vital skills just as much as the traditional assimilation of knowledge. Carefully selected questions and answers are designed to keep you actively involved and allow you to monitor your progress as you learn. This is an excellent way to improve your chess skills and knowledge. Learn from the games of a chess legend. Important ideas absorbed by continued practice. Utilizes an ideal approach to chess study.

Magnus Aage G. Sivertsen, 2023-12-26 Who is the chess genius Magnus Carlsen? The well-known Norwegian historian and author Aage G. Sivertsen has followed Carlsen for years. Sivertsen has accompanied him to tournaments, talked to chess players at the top of the world and with Carlsen's family and relatives. The result can be found in this book. It is as much about psychology as it is about chess. It shows that it is no coincidence that Magnus Carlsen has been the world's best chess player for the past 10 years.

Deep Blue Monty Newborn, 2013-03-20 is a competitor of the Deep Blue team. I had mixed emotions as I watched their chess playing machine defeat World Chess Champion Garry Kasparov during their 1997 Rematch. On the one hand, it meant that our MIT program Socrates would not be the first program to defeat a human World Chess Champion. On the other hand, I felt great admiration for the monumental engineering accomplishment that Deep Blue's victory represented and proud for the small part that my own team had played in advancing computer chess research. After over 50 years of concerted effort to produce a chess playing machine capable of beating the best human, Deep Blue finally attained the goal that so many computer scientists had sought. In this entertaining and informative book, Monty Newborn chronicles the story of Deep Blue from its origins as Chiptest at Carnegie Mellon University to its winning the Rematch as a top IBM research project. You do not have to be a chess player or a computer scientist to enjoy this marvelous tale of man and machine. Monty paints the characters of this drama in vivid colors: from the technical geniuses CB Hsu, Murray Campbell and Thomas Anantharaman to the visionary manager C.J. Tan. As only an insider can, Monty recreates the excitement of the event, including the IBM marketing hype and the marvelous compendium of editorial cartoons.

Deep Blue Monroe Newborn, Monty Newborn, 2003 This book offers a detailed account of IBM's Deep Blue chess program, the

people who created it and its historic battles with World Chess Champion Garry Kasparov The text examines the progress made by the creators of Deep Blue beginning with the 1989 two game match against Kasparov The heroes are IBM researchers Feng hsiung Hsu Murray Campbell and Joe Hoane along with team leader Chung Jen Tan and International Grandmaster Joel Benjamin The text chronicles one of the great technology achievements of the 20th Century It establishes the point in history when mankind's exciting new tool the computer came of age and competed with its human creators in the ultimate intellectual competition a game of chess This book will serve as the premier story documenting that achievement and a milestone in the development of artificial intelligence ANANDA ANIRUDDHA VINAYAK KSHIRSAGAR, 2025-09-09

A Novel set in the pre independence era depicting an errant boy from an educated middle class family who walks out of his house in protest to join the Army when the fires of World War 2 were raging high He embarks on a unique journey after he is shipped off to the Northern Coast of Africa to fight for the British Empire His journey takes him through Italy Iran and then to Kashmir and Leh Initially unaware he joins the Azad Hind force and wins for them a dangerous mission in Brahmadesh He never gets too attached to anything this quality guides him back home with a heart full of new understanding compassion and empathy for the world He is reunited with a sapling that he sowed in a professor's garden before leaving only to see its beautiful green leaves and its slender brown trunk planted in the ground Alive with a simple joy known as Ananda If more people loved home more than Gold and silver This world would be a merrier place Thorin from The Hobbit JRR Tolkein

The Shurangama Suera , Understanding Chess Move by Move John Nunn, 2001 A top class grandmaster explains step by step how chess games are won Cover *Lazar Achievement Psychology* Richard G.
