Physiology Coloring Book is a Coloring Book for medical and College Students. There are 78 organs in the human body. Among these 5 organs are considered vital which are brain, heart, kidney, liver, and lungs. It's not easy to memorize the whole anatomy section or all those 78 organs. But surprisingly, you can make it easy just by a simple trick. Let this book guide you. Coloring the anatomical segment can be useful to both medical students and laymen. Make the process easier to recognize memorized simultaneously. The descriptive books only give you information, but this book will help you to recognize the information. Color the body parts, then name the organs. It's the most effective way to gather knowledge in a creative way. There are other books that are similar to this: One Introduction to Anatomy, The Integumentary System, The Skeletal System, The Muscular System, The Nervous System, The Endocrine System, The Circulatory System, Lymphatic System, The Digestive System, The Respiratory System, The Urinary System, The Reproductive System.
