Assembly,2005-02-03 **Parliaments and the European Court of Human Rights** Alice Donald,Philip Leach,2016-08-18

The European system of human rights protection faces institutional and political pressures which threaten its very survival. These institutional pressures stem from the backlog of applications before the European Court of Human Rights, the large number of its judgments that remain unimplemented and the political pressures that arise from sustained attacks on the Court's legitimacy and authority, notably from politicians and jurists in the United Kingdom. This book addresses the theme which lies at the heart of these pressures: the role of national parliaments in the implementation of judgments of the Court. It combines theoretical and empirical insights into the role of parliaments in securing domestic compliance with the Court's decisions and provides detailed investigation of five European states with differing records of human rights compliance and parliamentary mobilisation: Ukraine, Romania, the United Kingdom, Germany and the Netherlands. How far are parliaments engaged in implementation and how far should they be? Do parliaments advance or hinder human rights compliance? Is it ever justifiable for parliaments to defy judgments of the Court? And how significant is the role played by the Parliamentary Assembly of the Council of Europe? Drawing on the fields of international law, international relations, political science and political philosophy, the book argues that adverse human rights judgments not only confer obligations on parliamentarians but also create opportunities for them to develop influential interpretations of human rights and enhance their own democratic legitimacy. It makes an authoritative contribution to debate about the future of the European and other supranational human rights mechanisms and the broader relationship between democracy, human rights and legitimate authority.

Chemical Control Michael Crowley,2016-01-26 This thoroughly researched study highlights the international community's failure to regulate contemporary state research, development, marketing and/or deployment of riot control agents and incapacitating chemical agent weapons.

The New Geopolitics of the South Caucasus Shireen T. Hunter,2017-09-22 This collection surveys the three South Caucasian states' economic, social and political evolution since their independence in 1991. It assesses their successes and failures in these areas, including their attempts to build new national identities and value systems to replace Soviet-era structures. It explains the interplay of domestic and international factors that have affected their performance and influenced the balance of their successes and shortcomings. It focuses on the policies pursued by key regional and international actors towards the region and assesses the effects of regional and international rivalries on these states' development as well as on the prospects for regional cooperation and conflict resolution. Finally, it analyzes a number of regional and international developments which could affect the future trajectory of these states' evolution.

Azerbaijan's Geopolitical Landscape Farid Shafiyev,2020-12-01 Being located between the Black and Caspian seas, Azerbaijan has always been the juncture of Eurasia, with a traditional reputation as a crossroads between the north-south and east-west transport corridors and the traditional ground for competition between numerous regional and global players using both soft and hard power. With its vast hydrocarbon energy reserves, Azerbaijan is a country of particular

importance in the South Caucasus The region s complex geopolitics have immensely influenced Azerbaijan s foreign policy strategy With the dissolution of the USSR Azerbaijan as a new state with fragile security found itself in a complicated situation surrounded by regional powers like Iran Russia and Turkey The book is built around several major foreign policy issues faced by the Republic of Azerbaijan since it regained its independence in 1991 These major issues include the conflict with Armenia and related matters the relationship with the West as well as the complexities arising from its relationship with Russia and its ties to Muslim countries such as Iran and Saudi Arabia *Country Reports on Human Rights Practices for 2005* United States. Department of State,2006 Theorizing the European Neighbourhood Policy Sieglinde Gstöhl,Simon Schunz,2016-12-19 Despite growing scholarly interest in the EU s flagship policy towards its Eastern and Southern neighbours serious attempts at theory building on the European Neighbourhood Policy ENP have been largely absent from the academic debate This book aims at contributing to fill this research gap in a three fold manner first and foremost it aims at theorizing the ENP as such explaining the origins development and effectiveness of this policy Building on this effort it also pursues the broader objective of addressing certain shortcomings in EU external relations theory and even beyond in International Relations theory Finally it aspires to provide new insights for European policy makers It is one of the first volumes to provide different theoretical perspectives on the ENP by revisiting and building bridges between mainstream and critical theories stimulating academic and policy debates and thus setting a novel less EU centric research agenda This text will be of key interest to scholars students and practitioners in EU external relations EU foreign policy the European Neighbourhood Policy and more broadly in European Union Politics and International Relations
