Petroleum Resource Management

John A.P. Chandler,2018-10-26 Petroleum Resource Management offers a thought provoking examination of how countries manage their offshore petroleum resources by comparing the different approaches to licensing and regulation taken by Australia Norway and the UK Based on extensive research into their policies licensing systems and resource management regulations including interviews with government regulators and companies John Chandler explores how these countries all face similar challenges as their offshore petroleum basins mature including smaller discoveries marginal production and ageing infrastructure Identifying further challenges such as climate change and the increasing accountability in relation to sustainability and social issues Chandler analyses how their petroleum policy systems of regulation and regulators developed up to the present and how they are responding to these challenges as well as how they deal with exploration development infrastructure sharing and production This timely and informative book will be essential reading for those in petroleum policy and governance including petroleum lawyers government officials regulators and analysts Academics and students on courses relating to petroleum regulation and the governance of resources will also benefit from this engaging book

energy prices and profit , Renewable Fuels Agency 2009/10 annual report to Parliament on the renewable transport fuel obligation Renewable Fuels Agency,2011-01-25 This is the second year of operation of the Renewable Transport Fuel Obligation and this report outlines the progress that is being made in encouraging the use of sustainable biofuels in the UK It provides statistical evidence on an evolving market and highlights good practice as well as those areas where more work is needed There is potential for biofuels to play a useful role in reducing greenhouse gas emissions without causing substantial environmental damage However this is unlikely to be achieved without careful planning and regulation **Annual Report of the Foreign-Trade Zones Board 2001** , Renewable Fuels Agency 2008/09 annual report to Parliament on the renewable transport fuel obligation Renewable Fuels Agency,2010-01-28 In 2008 09 the first year of operation the Renewable Transport Fuel Obligation RTFO met its objective of driving a market for biofuels in the UK 2 7% of the UK s total road transport fuel supply was biofuel which was slightly over the Government s target of 2 5% and is more than twice the supply of biofuel in 2007 08 No obligated suppliers had to buy out of their obligations The performance of suppliers in sourcing sustainable fuels was polarised Whilst several companies met all three of the Government sourcing targets with fully verified data a number also performed poorly Overall a significant improvement will be required to meet the challenges of the forthcoming EU Renewable Energy Directive In 2008 09 there was also a 46% carbon saving against the Government target of 40% The biofuels market has not as yet had a large impact on agriculture in the UK and although an effective driver

of the market for biofuel the RTFO did not during 2008 09 drive increases in the biofuel production capacity in the UK

Profits and Power David A. Detomasi, 2022-05-30 Oil fuels the global economy and remains a staple of our energy system Yet its production and use continue to draw negative criticism and an increasing number of people want to reduce or eliminate its use altogether Profits and Power sheds light on how the oil system works its key players and the political and geopolitical issues related to its use Starting in the second half of the nineteenth century the book traces the fascinating history of how oil production and its sale became the world's most profitable business Tracing distinct eras in oil's past Profits and Power shows how periods defined by shifts in price often dictated who controlled production and who enjoyed the often enormous riches oil production generated David A Detomasi weaves together politics geopolitics and economics to provide a complete picture of how the system really works and what direction it will take in the future As the world becomes increasingly aware of the dangers and challenges oil dependency creates knowledge of this crucial commodity has never been more relevant and critical for humanity's future Profits and Power will resonate with anyone interested in or charged with responding to our evolving energy future **EBOOK: Financial Accounting (GE), 8e** Robert Libby, Frank Hodge, Patricia Libby, 2016-04-16 **EBOOK Financial Accounting GE 8e** **This Changes Everything** Naomi

Klein,2015-08-04 Explains why the environmental crisis should lead to an abandonment of free market ideologies and current political systems arguing that a massive reduction of greenhouse emissions may offer a best chance for correcting problems

The Nature of the Firm in the Oil Industry Basak Beyazay,2015-10-16 Firm to firm relationships along with the overall structure of industry have changed markedly over the past decades Replacing the model of vertical integration with one of global business firms have started to outsource more by using a wider global network At the same time they have begun to increase their control and coordination along the value chain to remain competitive blurring the boundaries between companies Understanding the nature of the firm and its role in coordinating the supply chain will help firms to better define global competitive strategies The challenges that lie ahead for global business render obsolete the traditional model of procuring each service without long term supply chain management Current trends suggest that in the future there will be even deeper supply chain integration in most industries The Nature of the Firm in the Oil Industry aims to facilitate the understanding of the firm via the analysis of the specific relationship between international oil companies which are among the world s biggest firms and which act as core system integrators and the oil services companies which help to find extract produce and distribute oil along the petroleum industry supply chain This relationship serves as an example of deep integration by core system integrators and provides insights into the change in the nature of the firm in the era of modern globalization Aimed at researchers and academics The Nature of the Firm in the Oil Industry offers a thorough examination of this relationship in an effort to shed light on the nature of the firm both in the oil industry and in global business today It is a humble attempt to better understand the firm in a crucial industry *Northwest National Petroleum Reserve -- Alaska*
