**Current Trends in Global Education: Bridging K-12 and Higher Education for an Interconnected World** MARINA FALASCA,KARINA J. BAUM,2024-10-10 Current Trends in Global Education Bridging K 12

and Higher Education for an Interconnected World explores the evolving landscape of global education through insights from esteemed educators and researchers. It defines global education and presents multiple rationales for developing global competence along with a literature review of significant challenges over the past two decades. The anthology showcases innovative K-12 practices, emerging trends, and the transformative role of transnational telecollaboration and artificial intelligence (AI) in fostering global citizenship and cross-cultural communication. It also examines higher education focusing on novel pedagogical tools, hybrid learning communities, and virtual exchange initiatives in ESP/EAP courses, as well as key factors affecting AI adoption in this context. Concluding with future directions, the collection emphasizes the need for collaboration across educational levels to prepare learners to thrive in a globally connected world, making it an essential resource for educators, policymakers, and scholars aiming to bridge K-12 and higher education while reimagining global education.

A.I. Artificial intelligence, introduction to the issues and current trends Pavel Bartoš, 2023-01-01 Artificial Intelligence (AI) is often referred to by the acronym Artificial Intelligence. It is a fascinating and dynamically developing field that has far-reaching implications for various sectors of human activity. At its core, it is the simulation of human intelligence in computer systems. AI is capable of learning, planning, problem-solving, speech recognition, visual perception, and many other cognitive functions that were previously considered the exclusive domain of human thought.
