Systematic Investing in Credit Arik Ben Dor,Albert Desclee,Lev Dynkin,Jay Hyman,Simon Polbennikov,2020-12-10 Praise for SYSTEMATIC INVESTING in CREDIT Lev and QPS continue to shed light on the most important questions facing credit investors This book focuses on their latest cutting edge research into the appropriate role of credit as an asset class the dynamics of credit benchmarks and potential ways to benefit from equity information to construct effective credit portfolios It is must read material for all serious credit investors Richard Donick President and Chief Risk Officer DCI LLC

USA Lev Dynkin and his team continue to spoil us this book is yet another example of intuitive insightful and pertinent research which builds on the team's previous research. As such, the relationship with this team is one of the best lifetime learning experiences I have had. Eduard van Gelderen, Chief Investment Officer, Public Sector Pension Investment Board, Canada: The rise of a systematic approach in credit is a logical extension of the market's evolution and long overdue. Barclays QPS team does a great job of presenting its latest research in a practical manner. David Horowitz, Chief Executive Officer and Chief Investment Officer, Agilon Capital USA: Systematization reduces human biases and wasteful reinventing of past solutions. It improves the chances of investing success. This book by a team of experts shows you the way. You will gain insights into the advanced methodologies of combining fundamental and market data. I recommend this book for all credit investors. Lim Chow Kiat, Chief Executive Officer, GIC Asset Management, Singapore: For nearly two decades, QPS conducted extensive and sound research to help investors meet industry challenges. The proprietary research in this volume gives a global overview of cutting edge developments in alpha generation for credit investors, from signal extraction and ESG considerations to portfolio implementation. The book blazes a trail for enhanced risk-adjusted returns by exploring the cross-asset relation between stocks and bonds and adding relevant information for credit portfolio construction. Our core belief at Ostrum AM is that a robust quantitative approach yields superior investment outcomes. Indeed, this book is a valuable read for the savvy investor. Ibrahim Kobar, CFA, Global Chief Investment Officer, Ostrum AM, France: This book offers a highly engaging account of the current work by the Barclays QPS Group. It is a fascinating mix of original ideas, rigorous analytical techniques, and fundamental insights informed by a long history of frontline work in this area. This is a must-read from the long-time leaders in the field. Professor Leonid Kogan, Nippon Telephone and Telegraph, Professor of Management and Finance, MIT: This book provides corporate bond portfolio managers with an abundance of relevant, comprehensive, data-driven research for the implementation of superior investment performance strategies. Professor Stanley J. Kon, Editor, Journal of Fixed Income: This book is a treasure trove for both pension investors and trustees seeking to improve performance through credit. It provides a wealth of empirical evidence to guide long-term allocation to credit, optimize portfolio construction, and harvest returns from systematic credit factors. By extending their research to ESG ratings, the authors also provide timely insights in the expanding field of sustainable finance. Eloy Lindeijer, former Chief of Investment Management, PGGM, Netherlands: Over more than a decade, Lev Dynkin and his QPS team have provided me and APG with numerous innovative insights in credit markets. Their work gave us valuable quantitative substantiation of some of our investment beliefs. This book covers new and under-researched areas of our markets, like ESG and factor investing, next to the rigorous and practical work akin to the earlier work of the group. I'd say read this book and learn from one of the best. Herman Slooijer, Managing Director, Head of Fixed Income, APG Asset Management, Netherlands. *International Financial Statement Analysis* Thomas R. Exploratory Data Analysis Using Fisher Information Roy Frieden, Robert A. Gatenby, 2010-05-27 Sustainability is often used in a qualitative sense However there is at present a great need to quantitatively measure and monitor its many qualitative aspects in real systems Real systems are regarded as sustainable if they can maintain their current desirable productivity and character without creating unfavorable conditions elsewhere or in the future 1 4 Sustainability therefore incorporates both concern for the future of the current system temporal sustainability and concern about the degree to which some areas and cultures of the planet are improved at the expense of other areas and cultures spatial sustainability That is sustainability is to hold over both space and time Sustainability encompasses many disciplines For example economic systems are not sustainable if they degrade their natural resource base and impoverish some sectors of the human population 5 6 Indices are needed that will measure sustainability through time and over space at several scales These indices must also have the ability to aggregate the many disciplinary facets of sustainability often incorporated through a large number of environmental social and economic variables Such a multidisciplinary dynamic system can be regarded as sustainable if it maintains a desirable steady state or regime including fluctuations that are desirable such as those that respond to natural disturbances 8
