17,000 Classroom Visits Can't Be Wrong John V. Antonetti, James R. Garver, 2015-02-20 Most educators are skilled at planning instruction and determining what they will do during the course of a lesson However to truly engage students in worthwhile rigorous cognition a profound shift is necessary a shift in emphasis from teaching to learning Put another way we know that whoever is doing the work is also

doing the learning and in most classrooms teachers are working much too hard Authors John V Antonetti and James R Garver are the designers of the Look 2 Learning model of classroom walkthroughs They've visited more than 17 000 classrooms examining a variety of teaching and learning conditions talking to students examining their work and determining their levels of thinking and engagement From this vast set of data they've drawn salient lessons that provide valuable insight into how to smooth the transition from simply planning instruction to designing high quality student work The lessons John and Jim have learned from their 17 000 and counting classroom visits can't be wrong They share those lessons in this book along with stories of successful practice and practical tools ready for immediate classroom application The authors also provide opportunities for reflection and closure designed to help you consider or reconsider your current beliefs and practices Throughout you will hear the voices of John and Jim and the thousands of students they met as they provide a map for shifting the classroom dynamic from teaching to learning

Resources in Education ,2001-04 Writing Lesson Level K--Writing Block Planner Richard Gentry, Ph.D.,Jan McNeel, M.A.Ed.,2014-02-01 Incorporate writing instruction in your classroom as an essential element of literacy development while implementing best practices Simplify the planning of writing instruction and become familiar with the Common Core State Standards of Writing *A Cyclical Model of Literacy Learning* Adrienne Minnery,Antony T. Smith,2024 This book introduces the Cycle of Responsibility COR model the next step in the evolution of the Gradual Release of Responsibility model which has been a conceptual mainstay of literacy education for decades This new model shifts the current linear model to a cyclical process of multifaceted interactions that better reflect the complexities of early literacy and with an emphasis on constructing knowledge together in the context of vibrant learning communities Focused on reading writing and word study in the primary grades the COR is put into motion through five key motivators challenge creativity collaboration choice and independence Vignettes demonstrate how to enact COR in classroom contexts This practical resource is based on the authors shared research and teaching experiences in employing the COR to empower children as literacy learners and teachers as agents of impactful instruction Book Features Presents the Cycle of Responsibility model a new field tested teaching and learning model Moves away from linear task completion to a cyclical collaborative process that reflects the energetic complex and creative world of classrooms Provides a teacher centric approach that emphasizes shared construction of knowledge and the forces that motivate young learners Includes vignettes from the author's first grade classroom to illustrate ideas in practice as well as a chapter on teacher professional learning This book is a great example of how committed scholars of practice can transport research based practices into a discourse that speaks to teachers Read it Try it You'll like it From the Foreword by P David Pearson emeritus professor UC Berkeley

Checking for Understanding Douglas Fisher,Nancy

Frey, 2015-12-18 A teacher presents a lesson and at the end asks students if they understand the material. The students nod and say they get it. Later the teacher is dismayed when many of the students fail a test on the material. Why aren't students getting it? And just as important, why didn't the teacher recognize the problem? In *Checking for Understanding*, Douglas Fisher and Nancy Frey show how to increase students' understanding with the help of creative formative assessments. When used regularly, formative assessments enable every teacher to determine what students know and what they still need to learn. Fisher and Frey explore a variety of engaging activities that check for and increase understanding, including interactive writing, portfolios, multimedia presentations, audience response systems, and much more. This new 2nd edition of *Checking for Understanding* has been updated to reflect the latest thinking in formative assessment and to show how the concepts apply in the context of Fisher and Frey's work on gradual release of responsibility, guided instruction, formative assessment systems, data analysis, and quality instruction. Douglas Fisher and Nancy Frey are the creators of the Framework for Intentional and Targeted FIT Teaching. They are also the authors of numerous ASCD books, including *The Formative Assessment Action Plan*, *Practical Steps to More Successful Teaching and Learning*, and the best-selling *Enhancing RTI: How to Ensure Success with Effective Classroom Instruction and Intervention*.

Two Books Are Better Than One! Shari Frost, 2016-06-03 Today's early literacy programs are more demanding than ever. No longer is it sufficient to teach letters, letter sounds, sight words, and simple texts in kindergarten through second grade. Children are expected to read and comprehend texts in a variety of genres with increasing complexity. Then they must integrate the ideas and concepts from those texts into their own writing. *Two Books Are Better Than One: Reading and Writing and Talking and Drawing Across Texts in K-2* helps teachers meet those demands. Each chapter contains an anchor lesson focused on a different way of connecting texts, including by theme, characters, perspective, structure, or genre. The lessons feature research-based and common core-aligned strategies: interactive read-alouds, shared reading and writing, scaffolded small group reading, accountable talk, close reading, and opinion narrative and explanatory writing. Each anchor lesson features two high-quality children's books, and each chapter is rounded out with a list of other recommended book pairs to support you in creating your own lessons.
