Openshaw,Janet Soler,2007-06-01 Reading Across International Boundaries edited by Roger Openshaw and Janet Soler clearly demonstrates these broader characteristics of debates about the teaching of reading It sets the educational issues firmly in the context of the social cultural and political dynamics that inform and animate them and give them their meaning It does so by setting out to understand their historical and comparative dimensions Establishing the historical context highlights the origins and also the longevity of the problems and conflicts that are now widely familiar The comparative approach also gives purchase on the wide range of approaches taken to these issues in nations around the world More than this however this collection takes us into the realm of international influences It underlines how debates in this area are not simply national but are international and global in their scale Moreover this is the case not only in relation to the broad fabric of policy debate but also in the everyday struggles of pupils parents and teachers in schools classrooms and homes Such an agenda is unsettling and provocative It has the potential to challenge received opinion to hustle preconceptions It may also propose alternative visions for the improvement of teaching in this area that might be taken up and taken seriously in different localities or even more broadly Most of all it enables us to enrich and broaden our understanding of the learning and the teaching of reading at a time when awareness and vision are sorely needed This collection of articles by leading scholars based in several different countries will be a significant contribution to the research field but also a major resource when put to good use by policy makers and practitioners as it should surely be **Islam** Aslam Syed,2003-07 With the end of the Cold War the American political establishment perceived Islam as the new enemy The 1993 explosion at the World Trade Center the 1998 bombing of the American embassies in Africa and the events of 9 11 all culminated in substantiating this perception The War on Terrorism has raised several complicated issues surrounding the relationship between the United States and Islam With America s increasing involvement in the Middle East it is imperative for Muslims to understand America but at the same time Americans must learn to understand Islam The progress of civilization hangs on the ability for
