Global Economic Prospects, June 2025 World Bank,2025-06-10 The global economy is facing another substantial headwind emanating largely from an increase in trade tensions and heightened global policy uncertainty For emerging market and developing economies EMDEs the ability to boost job creation and reduce extreme poverty has declined Key downside risks include a further escalation of trade barriers and continued policy uncertainty These challenges are exacerbated by subdued foreign direct investment into EMDEs Global cooperation is needed to restore a more stable international trade environment and scale up support for vulnerable countries grappling with conflict debt burdens and climate change Domestic policy action is also critical to contain inflation risks and strengthen fiscal resilience To accelerate job creation and long term growth structural reforms must focus on raising institutional quality attracting private investment and strengthening human capital and labor markets Countries in fragile and conflict situations face daunting development challenges that will require tailored domestic policy reforms and well coordinated multilateral support

Investing Volatile Oil Revenues in Capital-Scarce Economies Christine J. Richmond,Irene Yackovlev,Ms.Susan S. Yang,2013-06-12 Natural resource revenues are an increasingly important financing source for public investment in many developing economies Investing volatile resource revenues however may subject an economy to macroeconomic instability This paper applies to Angola the fiscal framework developed in Berg et al forthcoming that incorporates investment inefficiency and absorptive capacity constraints often encountered in developing countries The sustainable investing approach which combines a stable fiscal regime with external savings can convert resource wealth to development gains while maintaining economic stability Stochastic simulations demonstrate how the framework can be used to inform allocations between capital spending and external savings when facing uncertain oil revenues An overly aggressive investment scaling up path could result in insufficient fiscal buffers when faced with negative oil price shocks Consequently investment progress can be interrupted driving up the capital depreciation rate undermining economic stability and lowering the growth benefits of public investment

Enabling legal frameworks for sustainable land-use investments in Tanzania: Legal assessment report Robert Kibugi,D. Andrew Wardell,Marie-Claire Cordonier Segger,Caroline Haywood,Renée Gift,2015-10-08 The International Development Law Organization IDLO and the Center for International Forestry Research CIFOR assessed the legal frameworks that govern land use activities and investments in Tanzania The policy institutional and legal frameworks are well developed although implementation and enforcement remains weak due to ambiguities in the law and a general lack of supportive incentives This Legal Assessment report for Tanzania examines four key challenges to the

attainment of sustainable land use investments These comprise Enforcement of environmental and social safeguards Tanzania has made progress in implementing the Environmental Management Act by ensuring greater compliance with the Environmental Impact Assessment regulations although exceptions exist in the construction sector and mining legislation that often enables the government to circumvent important land tenure safeguards Incentives for sustainable investments in the legal framework A lack of incentives exists despite the creation of the Tanzania Investment Centre the adoption of an Investment Guide in 2013 and the incorporation of sustainability considerations into laws and policies governing investments in the agriculture energy and forestry and mining sectors Land tenure security Tanzania s land law framework now includes formal recognition of customary title and the reservation of land under the category of village land exclusively for Tanzanians although improvements are still needed in terms of processes of consultation and compensation Public awareness and lack of access to information Awareness of natural resources and investment policies legislation and regulations is generally low amongst rural communities as well as Ward executive officers village leaders and village land committee members Rural radio represents their most important source of information
