Whiteside OBE, 2008-01-24 HIV AIDS is without doubt the worst epidemic to hit humankind since the Black Death The first case was identified in 1981 by 2004 it was estimated that about 40 million people were living with the disease and about 20 million had died Despite rapid scientific advances there is still no cure and the drugs are expensive and toxic Because of controversies and taboos surrounding safe drug usage and prostitution the numbers of people infected continues to rise However it is in the developing world and especially parts of Africa that the real catastrophe is unfolding In some of the worst affected countries life expectancy has plummeted to below 35 years which has led to a serious decline in economic growth a sharp rise in orphaning and the imminent collapse of health care systems The news is not all bleak though There have been unprecedented breakthroughs in understanding diseases and developing drugs Because the disease is so closely linked to sexual activity and drug use the need to understand and change behaviour has caused us to reassess what it means to be human and how we should operate in the globalising world This Very Short Introduction provides an introduction to the disease tackling the science the international and local politics the fascinating demographics and the devastating consequences of the disease and explores how we have and must respond ABOUT THE SERIES The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area These pocket sized books are the perfect way to get ahead in a new subject quickly Our expert authors combine facts analysis perspective new ideas and enthusiasm to make interesting and challenging topics highly readable

Sounding Off: Theorizing Disability in Music Neil Lerner, Joseph Straus, 2006-11-06 Disability understood as culturally stigmatized bodily difference including physical and mental impairments of all kinds is a pervasive and permanent aspect of the human condition While the biology of bodily difference is the proper study for science and medicine the meaning that we attach to bodily difference is the proper

study of humanists The interdisciplinary field of Disability Studies has recently emerged to theorize social and cultural constructions of the meaning of disability Although there has been an astonishing outpouring of humanistic work in Disability Studies in the past ten years there has been virtually no echo in musicology or music theory Sounding Off Theorizing Disability in Music is the first book length work to focus on the historical and theoretical issues of music as it relates to disability It shows that music like literature and the other arts simultaneously reflects and constructs cultural attitudes toward disability Sounding Off Theorizing Disability in Music promises to be a landmark study for scholars and students of music disability and culture

AIDS Update, 2000 Gerald James Stine, 2000 AIDS update 2000 focuses on the history of the HIV AIDS pandemic and examines cutting edge research and treatment advances With an eye to our future where we have been and where we are going

The Global Politics of AIDS Paul G. Harris, Patricia D. Siplon, 2007 With more than 40 million people living with HIV AIDS and more than 25 million dead from related diseases since the early 1980s the need to understand the causes and impact of the pandemic is manifest In response The Global Politics of AIDS explores power and politics at multiple levels ranging from individual behavior to corporate boardrooms to international institutions and forces The authors combine careful scholarship with sensitivity to both the suffering of those afflicted and the frustration of those seeking to bring about meaningful change All royalties from sales of the book will be donated to AIDS related charities

BOOK JACKET Pastoral Counseling for Orphans and Vulnerable Children Tuntufye Anangisye Mwenisongole, Elia Shabani Mligo, 2018-04-27 The existence of orphans is as inevitable to most African cities and the world as it is death These orphans are caused by the death of one or both parents due to various reasons including the scourge of HIV and AIDS Being orphans most of them are vulnerable to difficult lives because they have nobody to fend for them and take care of their lives They lack adequate food living expenses school fees and care since their current guardians are also in adverse economic situations In such situations orphans end up living a life of hopelessness and trauma which makes them deeply remember their dead parents and the care they received from them before death Following the vulnerable situation of most orphans this book through a study done in the Tanzanian context challenges churches to extend their counseling and caring ministries to Orphans and Vulnerable Children OVC It purports that the use of narrative approach is the most effective way to enter into the world of vulnerable children in order to provide pastoral counseling to them This approach helps pastoral counselors to use life stories proverbs biblical narratives plays arts songs riddles poems symbols and images as healing and coping mechanisms for OVC Therefore this book is helpful not only to churches and their ministry to orphans and vulnerable children but also to those who care for orphans in their homes Moreover it will be helpful to children who live in adverse conditions worldwide to find ways to cope with their situations through the stories of children used inside this book
