

Aircraft Maintenance Technician Interview Questions

Position Summary

An aircraft or aviation maintenance technician's primary responsibility is to repair and maintain aircraft and their systems according to Federal Aviation Administration (FAA) regulations. An aircraft maintenance technician may work on several different types of aircraft, and some may specialize in working on a specific part of the aircraft. Day-to-day duties will involve replacing, repairing, diagnosing, and testing aircraft parts to make sure they meet performance standards.

An aircraft maintenance technician must be able to manage stress well. When a plane or helicopter arrives at an airport, it is the duty of the technician to thoroughly review and perform any needed maintenance on the aircraft before it takes off. As an aircraft maintenance technician, you will need to possess expertise within your line of work and carry out your duties regularly and reliably.
