An Unlawful Act In Libya Based On A True Story:

An Unlawful Act in Libya John M. W. Smith, 2015-03-10 Every time you lose someone you really like you die a little Someone you've got used to who can read your every change of expression every gesture and tone of voice So begins the narrator of this story A story based on true events of what happened to one young man who ventured into Libya at the height of Colonel Gaddafi's power Most people in the prime of their lives go through a period when they feel an instant spark of rebellion in their breasts at anything labelled forbidden impossible life threateningly dangerous or otherwise regarded with fear and apprehension by others Because youth is a time to test boundaries To prove oneself to oneself and to others Everything unobtainable is a challenge And if such a challenge comes bedecked with possible financial rewards kudos and prospects of career enhancement then obviously so much the better And at this point even if you had told Gamal Ibrahim the story of Icarus son of Daedalus who dared to fly too close to the sun on wings of feathers and wax it would have made little difference And who can blame him Isn't that what being young is all about And if you had also told him that when entering a land where monsters rule it is wise to have a foolproof exit strategy he would probably have said Why What have I got to fear if my intentions are honourable and my conscience is clear Why should I need to worry if I am prepared to speak the truth at all times Ah The naivety of youth For what exactly the truth is what is right or wrong good or bad is not what concerns monsters What concerns them is power And when in power monsters tend to have their own ideas about what should or shouldn't happen and to whom

The Changing Face of Warfare in the 21st Century Gregory Simons, Italian

Chifu,2017-07-20 This study discusses salient trends demonstrated by contemporary warfare of these first years of the 21st century The authors reinforce previous notions of Fourth Generation Warfare but most importantly explore the workings of new components and how these have modified the theory and practice of warfare beyond the basic divisions of conventional and unconventional warfare as witnessed in the preceding century Throughout history there has been a close interaction between politics communication and armed conflict and a main line of investigation of this book is to track changes that are presumed to have occurred in the way and manner in which armed conflicts are waged Using cogent examples drawn variously from conflicts of the Arab Spring the Islamic State and Russian adventurism in South Ossetia Crimea and Eastern Ukraine the authors demonstrate the application of Information Warfare the practice of Hybrid Warfare and offensive use of diplomacy communications economics and international law to obtain political and military advantages against the status quo states of the international community The authors combine a theoretical framework with concrete empirical examples in order to create a better understanding and comprehension of the current events and processes that shape the character of contemporary armed conflicts and how they are informed and perceived in a highly mediatised and politicised world **The**
